Another year has swiftly passed and another graduating class is about to step into the wide, unknown world of tomorrow. Their only regret is that they will not be returning with the many underclassmen to the joy and excitement of high school life.

We have endeavored to compile in this, the 1959 SCOUT, the many highlights of the past school year. We hope it will fulfill its purpose well by bringing back cherished memories of classes, organizations, activities, and friendships made at David City High School.

School Board

Another successful year was made possible by the efforts and cooperation of the schoolboard. Here, seated left to right, Bob Gingery, Edgar Thomas, Mrs. Mary Robins, Mrs. Lillie Magilton, Harold Zinnecker and Robert Mayfield attend one of their regular meetings.

There is no appetite like that of a hungry student. Here, Mrs. John Tomek, left, and Mrs. Vern Blevins, right, prepare to serve the hungry students who descend upon them at noon.

"Ready, willing, and able" may well be used to describe the D.C.H.S. custodians, Bob Doner, left, and Glen Ladwig, right, as they work hard at one of their many tasks.

School Workers

The bus drivers, left to right, Bob Doner, Chet Smith, John Tomek, and Fred Forney, not only take students to and from school every day but also give their time to drive to the many out-of-town activities which take place during the year.

STUDENTS

Graduation day is near, and the seniors, led by their class officers, front row, left to right, Ann Zellinger, president, LaRae Marquis, secretary; back row, left to right, Larry Heins, vice-president, and Lynn Ostermeier, treasurer, have been as "busy as beavers" preparing themselves for that big day.

Who says they can't keep a secret! The junior class has been keeping the plans for the prom a secret. Here the officers, back row, left to right, Dave Hanis, treasurer, Dick Bolton, vice-president; front row, left to right, Deanna Hascall, president, and Delores Stara, secretary, are seen leaving a class meeting.

Class Officers

The sophomores are "oh, so happy" over the yelling cup they won; and here, left to right, Melvin From, class president, Beverly Heins, class secretary-treasurer, and Mickey Sandy, vice-president, admire it with a great deal of enthusiasm.

There's nothing green about these four freshman officers! Here they pose for a picture as they descend the stairs. They are, front row, left to right, Joan Bohaty, treasurer, Donald Wittulski, president; back row, Sara Zellinger, vice-president, and Donald Buresh, secretary.

CLASSES

"This is the part I like," is probably the thought of most of these freshmen students as they eat a meal they have worked hard to prepare in class.

"Homemakers of tomorrow" is a title that could well be applied to the girls enrolled in the home economics course. Under the expert guidance of Miss Margaret Briggs they are learning skills that will be invaluable to them later in life. Besides learning to improve their cooking and sewing, the girls learn the preservation of foods, budgeting, interior decorating, homenursing, and the improvement of their personalities and relationships.

The students get an opportunity to put their newly acquired knowledge to use by completing home experiences related to their present unit of study.

Home Economics

Girls in the senior homemaking class, left to right, Janie Smith, Betty Brecka, and LaVerne Kratochvil, seem to be having a good time serving cake at their mock wedding reception to a classmate, Joe Codr.

Jane Zellinger, left, adjusts the steam vaporizer so that it is in the correct position for her "patient," Georgianne Kozisek.

Learning the new methods and processes of farming can be very interesting, especially when field and judging trips make up a part of the program. These trips are to help the boys become efficient in the modern methods of farming.

Mr. Eldon Erwin, voc. ag. instructor, helps the students gain expert knowledge in the fields of animal husbandry, crops and soils, farm mechanics, and farm law, credit, and management.

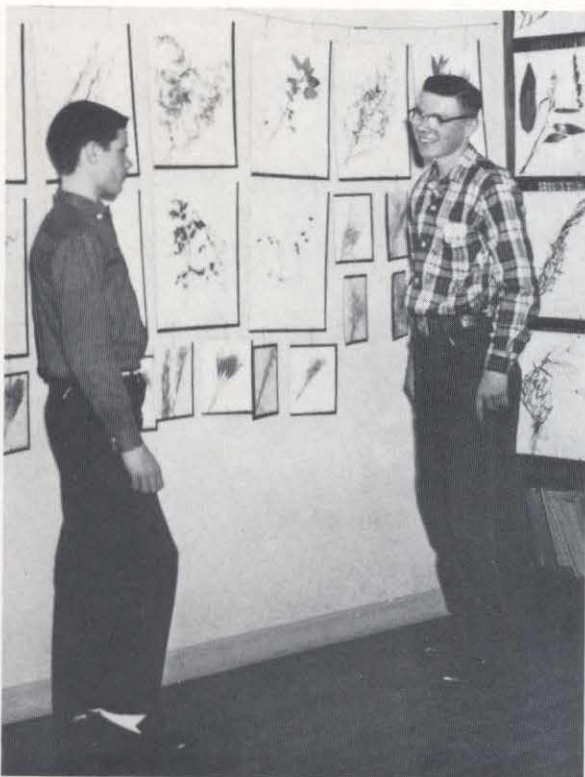

There is also a four year shop program offered where the boys learn to make equipment to be used on the farm.

Besides school activities, the boys are encouraged to enter projects in the county and state fairs in competition with boys from other schools.

Counting is an important part of the pest control contest the voc. ag. boys are taking part in. Taking their turn at counting the tails are, left to right, Dwain Divis, Kenny Ptacek, and Marvin Bohaty.

Vocational Agriculture

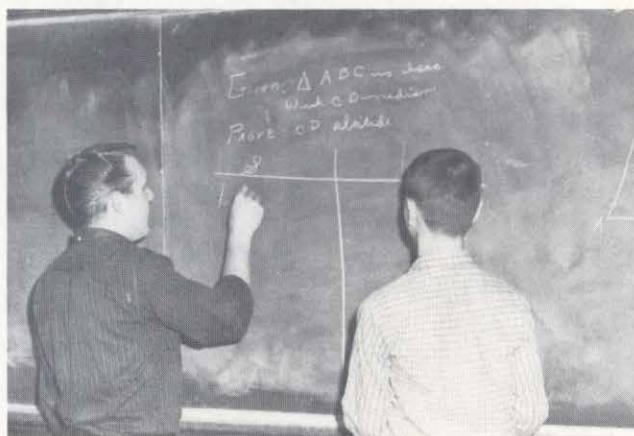

Don Taylor and Marvin Bohaty are admiring the posters displayed on the wall of the voc. ag. room.

Welding takes a lot of patience and hard work. Gene Lanc, and Lynn Ostermeier are concentrating on doing a good job on a shop project.

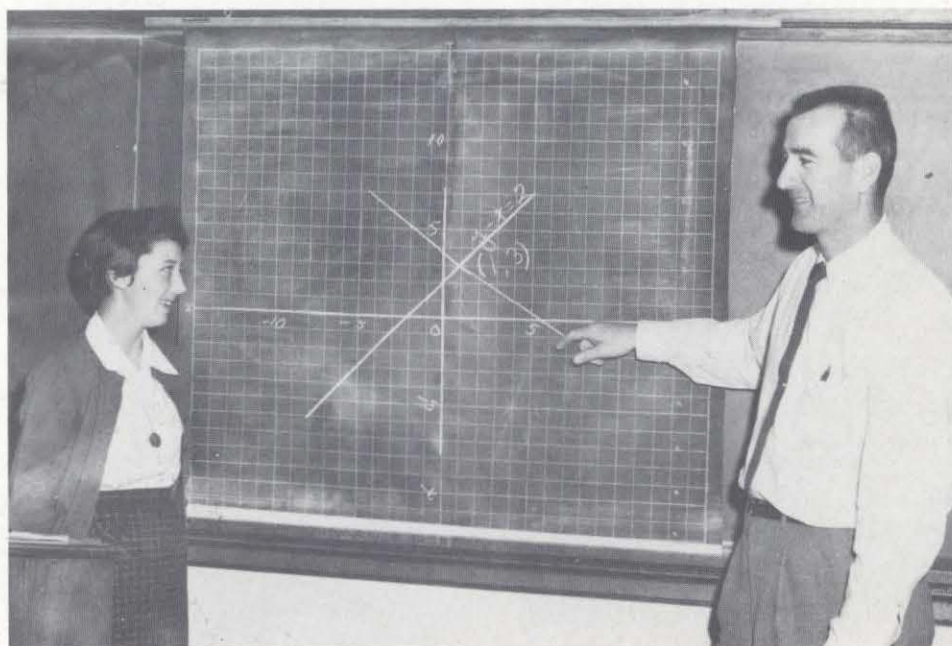

Who says general math is easy? Mr. Davis is helping Charles Masek with a problem he finds difficult.

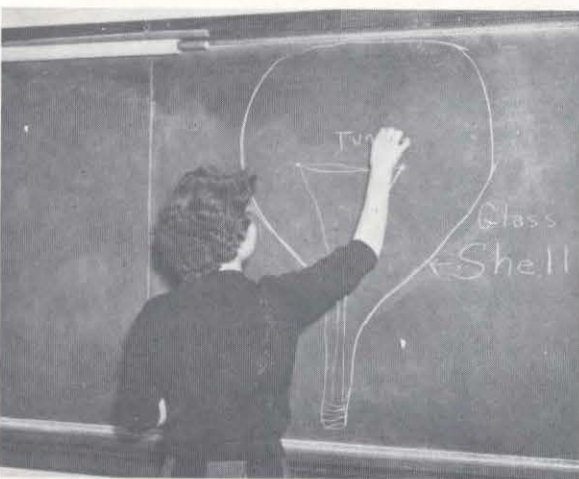

Wayne Soukup, left, starts proving a geometry problem guided by the advice of Jim Armagost, right.

Mathematics

With this scientific world we live in people realize, as they have in the past years, the importance of math. To teach students to solve problems with ease and intelligence is the goal of the math instructors at DCHS. They are emphasizing the importance of math by offering four courses. They are general math, algebra, geometry, and advanced algebra.

Learning to draw and understand graphs can be fun as well as educational for algebra students like Elaine Jisa, especially with a good instructor like Jim McConnell.

"These are the parts of a light bulb," says Phyllis Pelan as she labels her illustration for the general science class.

Science

The knowledge of science is now playing an important part in the lives of the youth of today. David City High School is striving to meet this challenge by offering four courses in science. In preceding years David City has alternated physics and chemistry. Under the instruction of Miss Catherine Swanson both are now being offered, which shows that the students of David City realize the important part science plays in their daily lives. The other courses offered are general science and biology.

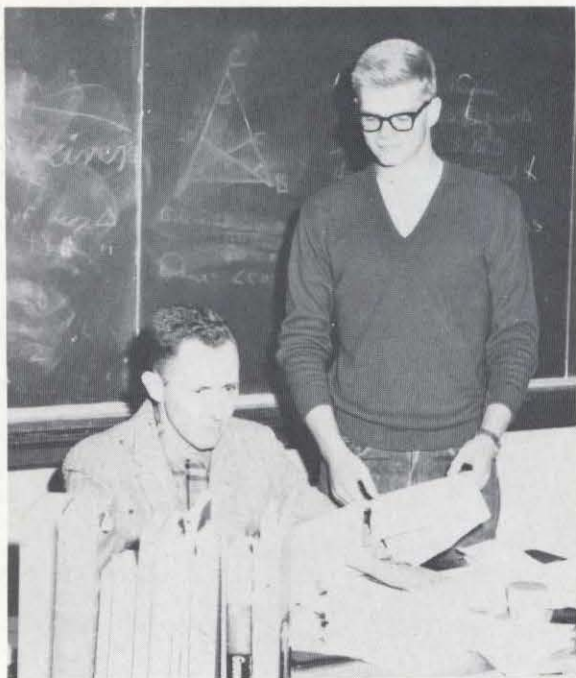

Miss Swanson is busy giving some helpful advice to Carl Sandy during a chemistry study period.

An added interest to physics class is laboratory experiments. Gary Pelan, left, and John Vasina, right, watch as Rose Marie Bohaty begins a new experiment.

The "Evil Eye." That's the name the students have given the eye model Miss Swanson is showing to Paul Schlautman.

Bill Zinniecker, right, a senior English student, is waiting for Mr. Stone's advice on a theme he has just written.

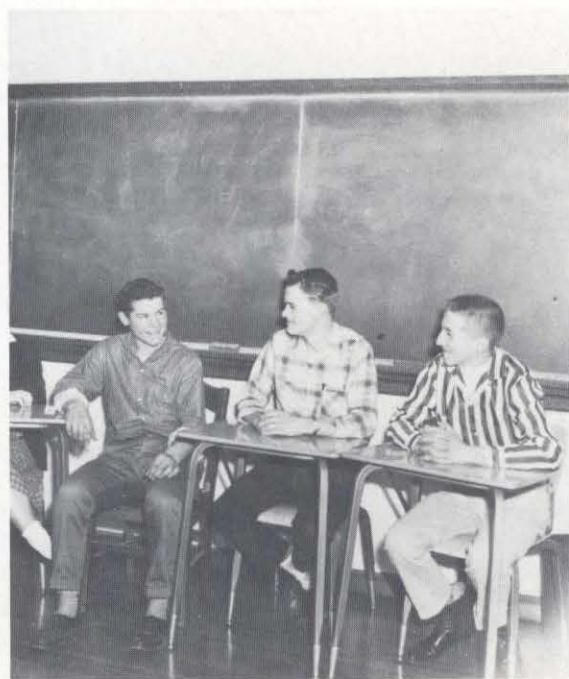

English

Do you plan to go to college? If you are planning to, the instructors here at DCHS will tell you one of the most important subjects you can take in preparing for college is English. It is not only important because of its value in college, but you will find it is a tremendous help in what ever occupation you plan to enter in the future. Four years of English are offered to the students of David City.

A well stocked library is here to help any student who has to write an essay or look up vital information. Under the close supervision of Miss Hoffman approximately 300 books, magazines, and reference books are entered each year.

Rose Marie Bohaty, left, and Joyce Huisenga, center, student librarians, are helping Miss Hoffman accession new books for the school library.

This panel discussion in the sophomore English class is led by Roger Svoboda, second from left. Taking part in the discussion are, left to right, Sharon Lnenicka, Gary Icenogle, and Charles Sandy.

Dale Hayhurst, an American history student, shows his estimation of the position of Nebraska on the globe to Wilma Ostermeier, left, and Marilee Haney, right.

Beverly Hascall and Joan Bohaty watch closely as Steve Thomas proves some figures he has just stated during a discussion in world history.

History

"Why do we take history?" is the question asked by most students. The best answer that can be given is so you can better understand both foreign and domestic types of governments and how they came about. In this way you will be better equipped with

the necessary knowledge needed to make you a better citizen. Under the direction of Mr. Ronald Gray three classes of social studies are offered. They are world history, American history, and American problems.

Debates are educational, but the students of the American problems class found that they can also be fun.

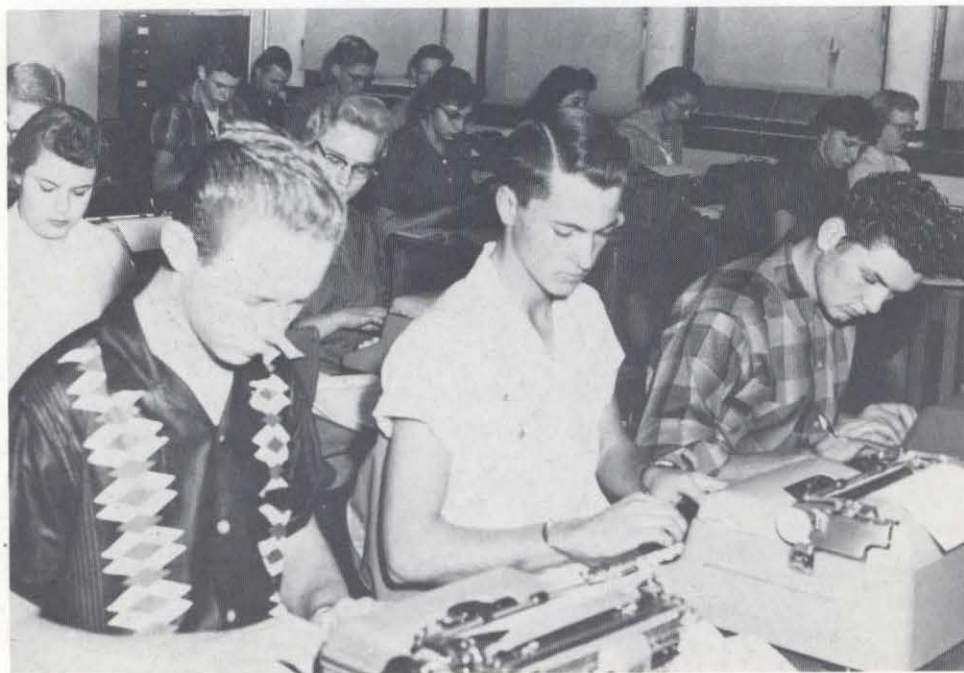

The assembly line method works out fine when there is a good deal of work to be done, Mrs. Smith, center, school secretary, enjoys helping office practice students like Marianne Remmers, left, and Nancy Svoboda, right, complete the job on time.

Nancy Kudlacek is shown putting up a "helpful hint" poster on the bulletin board in the typing room.

Commercial

Everyone is hard at work in typing class as they try to improve speed and accuracy during a five minute timed writing.

LaRae Marquis and Dorothy Palensky file letters as part of their classwork in Steno II.

To maintain its high standing as having one of the best commercial departments in the state, DCHS must have the newest models of machines and equipment. These are available for the students taking the office machines course so that they can become efficient in operating the various types of machines that they will encounter in the business world. There is also a Steno II class and office practice course available for second year students.

"Dear Sir" is a familiar phrase to these Steno I students as they learn the techniques of taking letters from dictation.

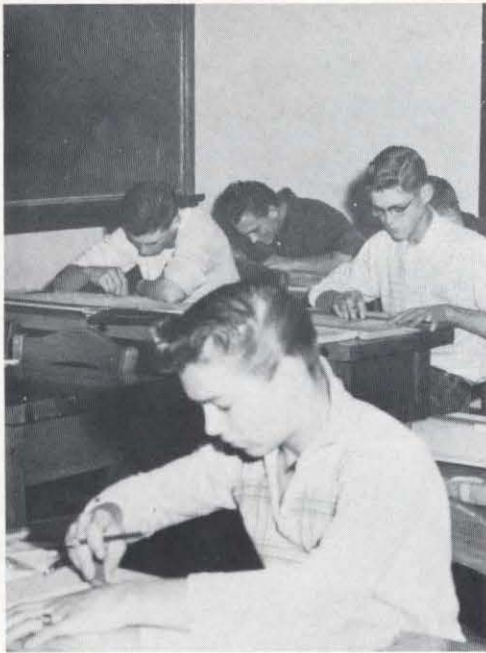

For first year students there is typing and Steno I. In Steno I the students learn to take shorthand from dictation and transcribe their notes into readable letters.

In Steno II they learn filing, banking and other advanced skills, and improve their typing and shorthand.

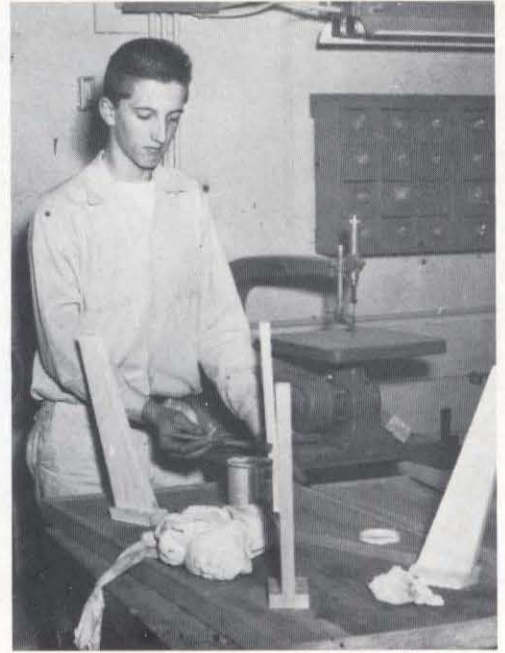

The commercial courses this year were under direction of a new instructor, Miss Jeanne Woodside.

A group of senior girls works diligently to master the machines they are learning to operate.

Don Cemper, with a determined look on his face, is working diligently on his mechanical drawing assignment. Those in the background are Jim Robins, Don Styskal, and Gerhardt Backhus.

As he puts the finishing touches on his coffee table, Mickey Sandy has that solemn look of satisfaction.

Other Classes

Industrial arts and mechanical drawing are offered under the instruction of Mr. Lee Covalt. In industrial arts the students learn to build, repair, and upholster furniture.

The students in driver training take to the open road during the second semester and Mr. Jim McConnell assists them in learning correct driving techniques. During the first

semester the students have classroom work twice weekly.

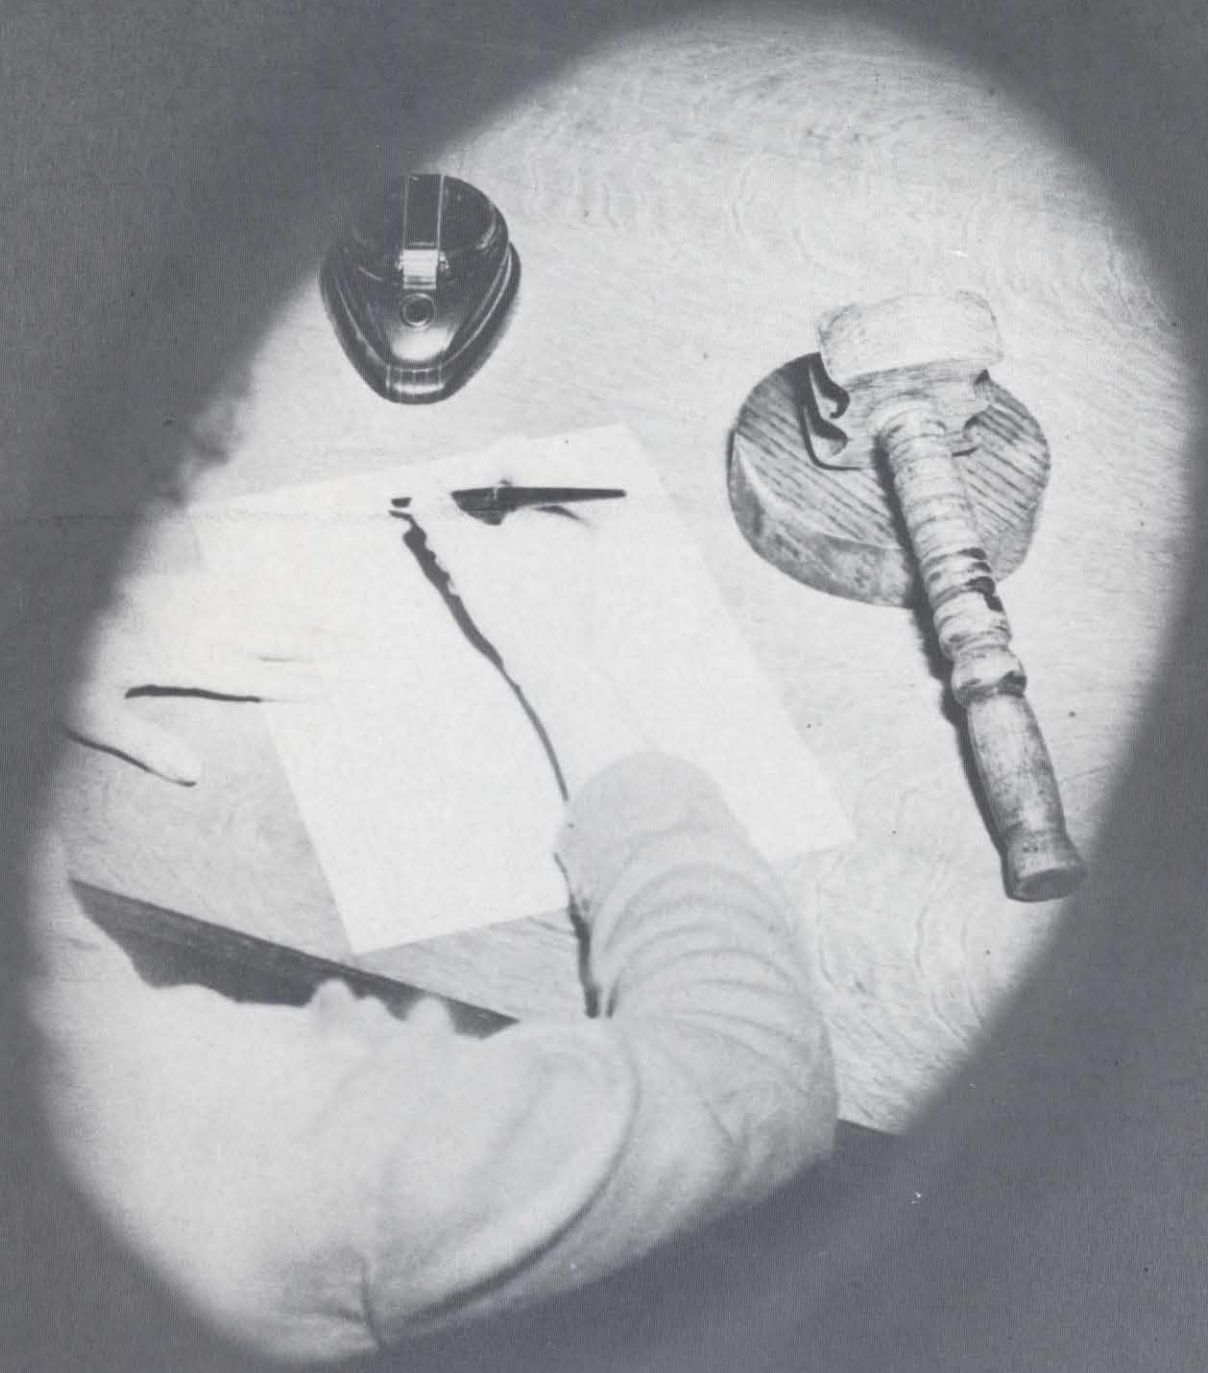

Girls' physical education, under the direction of Miss Bonnie Godtel, helps to develop body coordination and better posture. The girls also learn various sports and games such as volleyball, soccer, softball, and badminton.

Emmanuel Pelan and Ronald Shipley are learning the art of changing a flat tire during their drivers training course.

"Hit it over here!" is the shout of the girls as one of them reaches up to return the ball during a game of volleyball in the girls' physical education class.

The purpose of the DC Club is to arouse an interest in athletics and to further a well-rounded athletic program in DCHS. To gain membership in the DC Club, a boy must have lettered in football, basketball, or track.

Deserving the credit for the high spirit exhibited at all the football and basketball games is the pep club. The members attended all the games and loyally backed the team, win or lose. They presented skits at the rallies held before home games and did a great deal to booster school spirit.

The refreshment stand, run by the pep club, is open at the end of each school day to serve hungry students. Here Viola Sisel, left, and Kathy Pospichal, right, serve Terry Kilgore, left, and Ernie Stara.

The officers of the FHA are left to right, sitting, Nancy Wright, Alice Kucera, Viola Sisel, Nancy Svoboda, Pres., Rose Marie Bohaty, LaRae Marquis, Delores Stara, and Joyce Huisenga; standing Madeline Gingery and Maxine Huisenga.

F.H.A. and F.F.A.

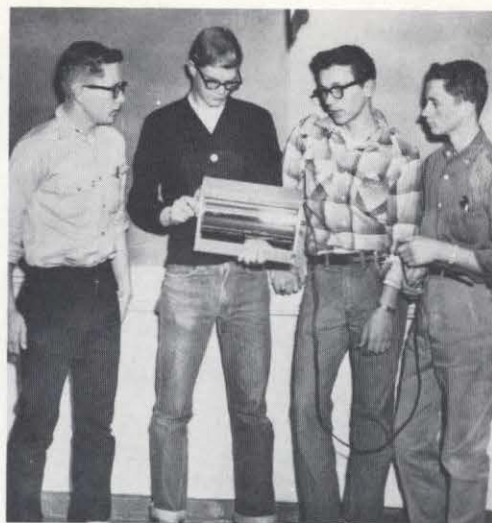

This has been another busy year for the Future Homemakers of America and the Future Farmers of America. The FHA is under the direction of Miss Margaret Briggs, and FFA is under the direction of Mr. Eldon Ervin. Besides taking various individual projects, the FHA and FFA have worked together on many projects. Some of them include Parents Night, Coronation of the FFA Sweetheart and FHA King, and the annual Caroling Party. The members and their parents, who were invited to attend several of the activities, agree that it was a very successful year.

Guiding the FFA are the officers, Bill Marushak, Lynn Ostermeier, Leonard Havelik, Terry Kilgore, and Eugene Lance. Not Pictured is Larry Heins, Pres.

Inspecting the new print dryer are the photographers, Dale Hayhurst, Bill Zinnecker, Gary Fricke, and Rick Lnenicka.

Student Council and Journalism

The student council has been busy this year sponsoring parties and taking care of the many other activities in which the student body takes part. They encourage democratic ideals by leading the students in the flag salute every Monday morning. They also sponsored programs for the students' education and enjoyment.

Taking pictures, writing copy, and meeting deadlines are all a part of the work that must be done before final publication. The journalism department has been working busily all year to turn out a paper and an annual that the students will be proud of. The Scoop, which is published every three weeks, keeps the students informed of current activities and the Scout furnishes a record of the year's memorable events.

The student council officers were, left to right, Jane Zeilinger, Gerhardt Backhus, Carl Sandy, and John Vasina.

This year the annual staff consisted of, front row, left to right, Deanna Hascall, Ann Zeilinger, Rose Marie Bohaty; second row, Georgianne Kozisek, Janie Smith, Beverly Heins, and LaRae Marquis.

Instrumental Music

The DCHS marching band stands rigidly at attention for last minute instructions and practice before boarding the bus for the Nebraska State Fair.

Francis Codr, Patty Smith, Alta Hoback, Janie Klosterman, Valerian Dobish, Jim Robins, Mike Jess, Gary Icenogle, Robert Sabata, Gerhardt Backhus, Bobby Gingery, Donna Struebing, Dale Hayhurst, Sharon McDonald, Jack Eberley, Gladys Stara, Sandra Moskovitz. There has been a noticeable increase in the number of students participating in the instrumental music program this year. With over 110 students, the different groups have made many public appearances.

During the summer season the Scout marching band appeared in parades at the Nebraska State Fair, University of Nebraska Band Day, five football performances, and three other parades.

The concert band consisting of 70 members entertained audiences at several winter and summer concerts, and took part in the contest.

Hard work and hours of practice have made a good band under the direction of Mr. Richard Baller.

All set to play is the clarinet quartet. The members this year are, left to right, Jane Zeilinger, Ann Zeilinger, Sharon Lnenicka, and Deltrude Straka.

Track

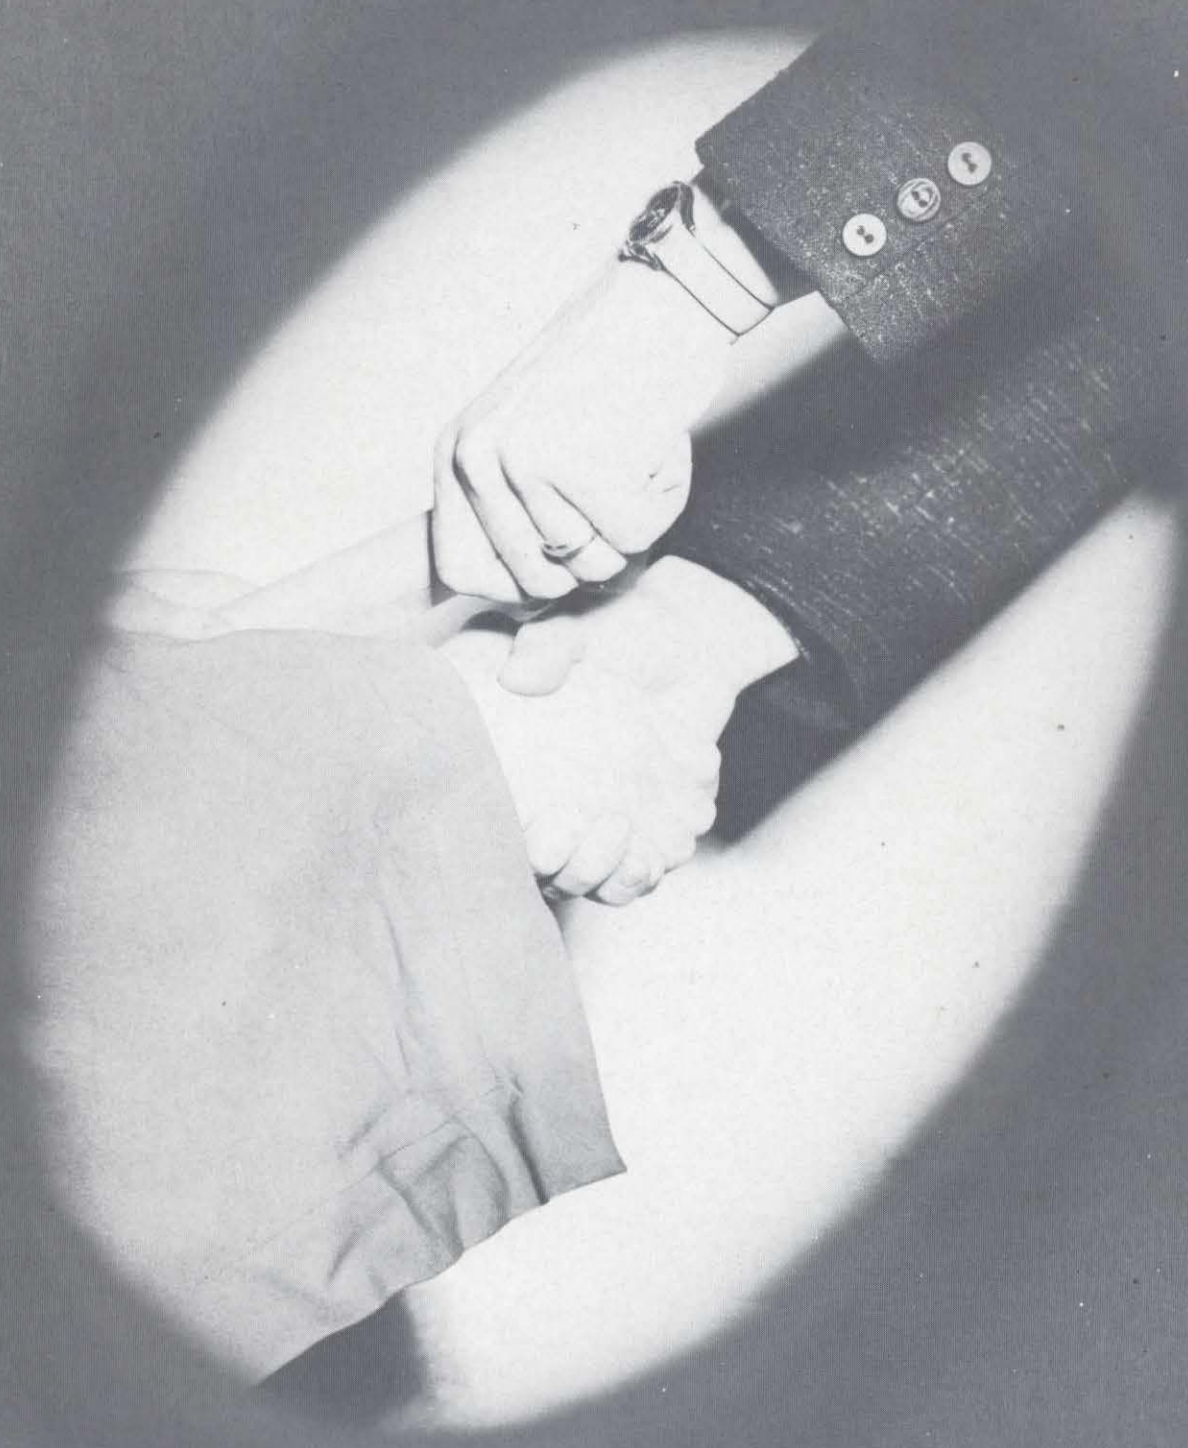

Athletic Director Jim McConnell feels that the possibilities of the track team are fair with the return of lettermen Lynn Ostermeier, Alan Roberts, and Ron Stara who qualified for the state meet in Lincoln last year.
