Busily counting ballots are the junior class officers: Beverly Heins, secretary; Gary Icenogle, treasurer; Georgianne Kozisek, president; Dennis Siedel, vice-president. In reply to our question as to what they were counting ballots for, they refused to tell us. Could it have to do with the junior-senior prom?

CLASSES

English

Proudly examining the book posters that the freshman class made are Joe Fiala and Dick Taylor. Cleo Hobak is pointing to the top reader of their class.

Acting out parts in Julius Ceasar before their class are, left to right, Darlene Svoboda, Don Taylor, and Marcia Ball.

Betty Cemper, left, is pointing out to Sharon Lnenicka her choice of a challenging book to read.

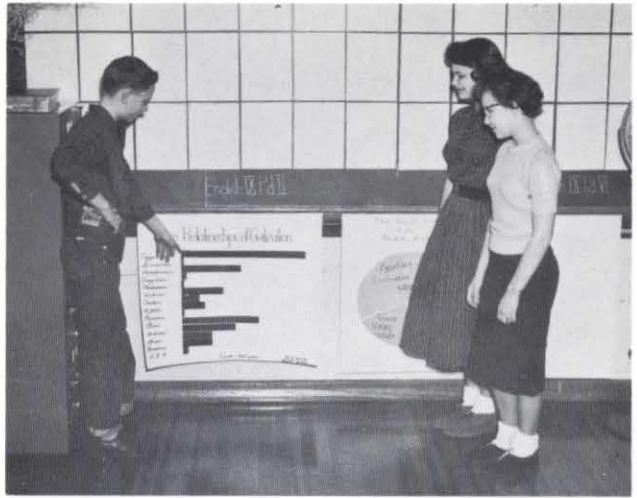

Looking up some of the more difficult words in senior English, are Janet Miratsky and Dale Hayhurst.

History

Today's happenings, tomorrow's history! Miss Lucille Hoffman and Mr. Ron Gray explain to their pupils in world history, American history, and American problems the reasons for taking history. The happenings of the past often hold the keys to the future.

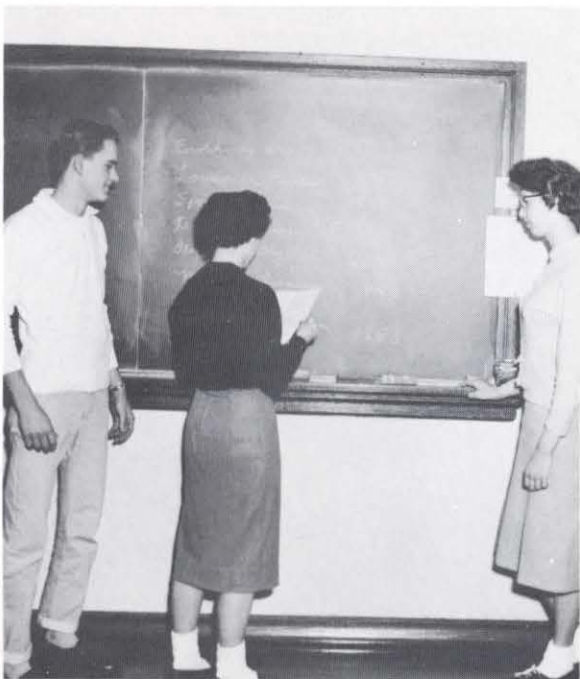

The ability to understand the future is often found in the past. The happenings and events of today will be part of the subject of history students tomorrow.

The freshman students, Jack Wolfe, Ellen Rae Zima, and Carol Lee Bohaty learn world history can be fun as they examine a chart they have made.

Here you see the American problems class busily studying the American Observer. American Observers are a big part of all history classes. Pictured, from left to right, are Wilma Ostermeier, Margaret Kratochvil, Gerhardt Backhus, Arthur Kovar, Rose Marie Bohaty, and Terry Kilgore.

Beverly Heins is listing the territories as they were admitted to the Union. Looking on are Gary Icenogle and Georgianne Kozisek.

Wilma Ostermeier and Darrel Jensen are finding valuable information concerning stocks and bonds to present to the class as part of their research work.

"What is the answer to problem number 5?", could easily be the question that Bruce Piller, right, asks Anton Knoch and Martha Jindra.

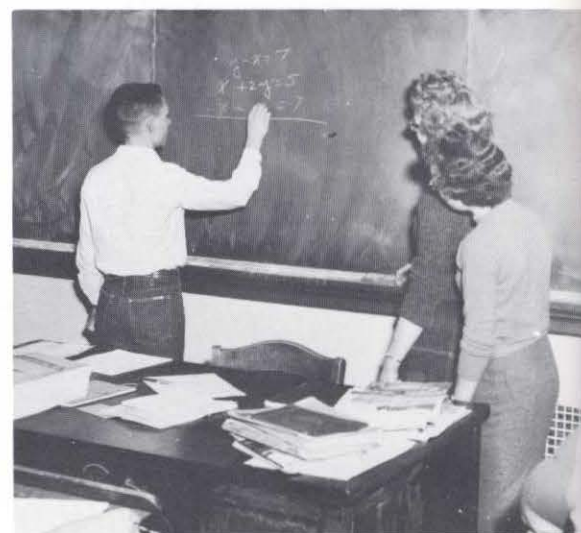

Karen Pallas seems quite pleased at the explanation Mr. Stone has given her in solving a problem in algebra II. In the background you see Mike Hasik studiously studying.

Mathematics

The math courses of David City High School include general math, algebra, geometry, and advanced algebra. The importance of these subjects cannot be over-emphasized regardless of the type of course a student is taking. Mr. Davis, Mr. Stone, and Mr. McConnell are the able instructors in these essential courses.

Showing Jim Smith how to solve a problem in geometry is Sara Zeilinger.

The many different ways of solving equations can be complicated. Here Jack Wolfe is showing Gladys Stara and Carol Lee Bohaty how to solve such a problem in algebra I.

Proudly examining their new general science laboratory desks are, Adolph Oborny, Susanne Johnson, and Betty Kovar.

Science

An adequate knowledge of science is essential in this modern day and age. The number of students taking these subjects shows the increasing importance of science in everyday life.

To firmly establish the principles of science into the minds of David City High School students, four science courses are offered; physics, chemistry, biology, and general science. Under the guidance of Miss Swanson and Mr. Quick, these subjects are presented in an interesting manner.

It looks as if Sharon Murphy and John Vasina are having fun watching the climax of the experiment in chemistry.

Several model plants have been added to the biology department. Here we see Miss Swanson explaining the different parts of a flower to Don Romshek and Milo Vanis.

Jo Ann Sack and Virgil Pokorny are finding out accuracy plays a very important factor in physics as they work on an experiment.

Learning to type business letters and forms is an important part of the steno II class. Here we find, left to right, Mary Haight, Alice Kucera, Wilma Ostermeier, Deanna Hascall, Delores Stara, and Marjorie Hoback working on their daily assignments.

It seems as though Alice Kucera is deeply thinking about what Mildred Smith has just told her and Marjorie Hoback to do in office practice.

Mrs. Robinson is observing the work done by Beverly Heins, while the rest of the class busily work on.

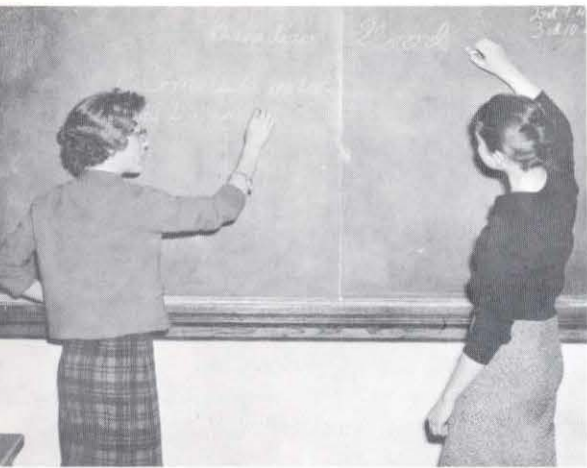

Commercial

The commercial course offered at David City High School is a well-balanced one. Students taking this course have knowledge and skills which are much in demand by today's employers.

This course includes the knowledge of shorthand, typing, office machines, filing, and general office work. All these subjects are taught by Miss Kay Robinson. The senior commercial students may put their knowledge into use in the school office under the supervision of the school secretary, Miny Smith.

Learning how to operate the rotary calculator in office machines is Delores Stara. Looking on is Darlene Kucera.

Linda Fadschild and Marilee Haney find it is a great help to practice translating Spanish into English on the blackboard.

Spanish and Industrial Arts

For several years David City High School has not offered a foreign language. Spanish, one of the most prominent languages of today, is now offered under the supervision of Miss Caroline Skopec.

Industrial arts is offered at David City High School under the direction of Mr. Bilse Robinson. These boys spend their time in the school shop learning to build and upholster furniture.

Mechanical drawing is offered under the industrial course. In this class students learn to draw different views of objects. This is helpful in many different occupations including architectural and designing occupations. This is also under the direction of Mr. Bilse Robinson.

Rick Lnenicka seems quite busy learning how to draw the many plates that are required in mechanical drawing.

Miss Caroline Skopec is pointing out some of the basic rules in Spanish to Leon Houdesheldt.

One of the many students taking industrial arts is Paul Schlautman. Here we find him receiving some help from Mr. Bilse Robinson on his project.

Cooking is one of the goals in home-making I. Kathryn Krov and Ida Sandy are learning that by following the recipe very closely the outcome is usually successful.

What have we here? A wedding! This is one of the many subjects the senior home-making girls study in preparing themselves for future life. Pictured are, back row, left to right, Margaret Kratochvil, Dianne Mahlin; front row, left to right, Gene Kopecky, Judy Anderson, and Wilma Ostermeier.

Home Economics

Homemaking includes many other phases besides cooking and sewing. Personality, dating, food preservation, and first aid are only a few. Miss Happel, a new instructor at David City High School, has many new and interesting ideas for the homemaking department.

The girls put into practice what they learn in class by having home experiences every three weeks. This helps them to use their own judgment and be more self-sufficient.

As we can see, Rose Marie Bohaty and Miss Happel are busy laying a pattern for a home experience project. All homemaking students know that home experiences help to master homemaking.

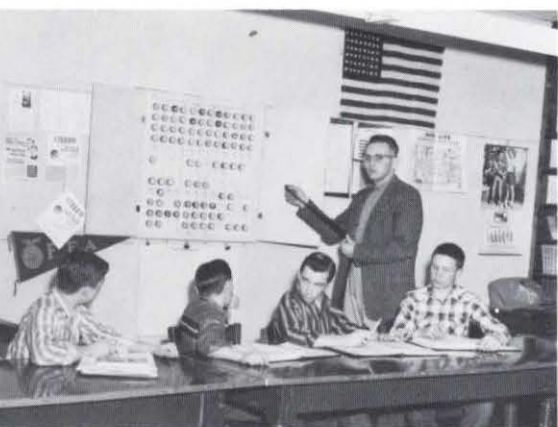

Learning to administer the principles of home nursing is one of the goals of home-making II. Here we find Pat Smith and Geraldine Kucera demonstrating to the class how to bandage a broken wrist.

Vocational Agriculture

Agriculture is America's basic industry; it is not only very important to this country but also to foreign countries. Because of this great importance of agriculture, David City High School offers four years of vocational agriculture training.

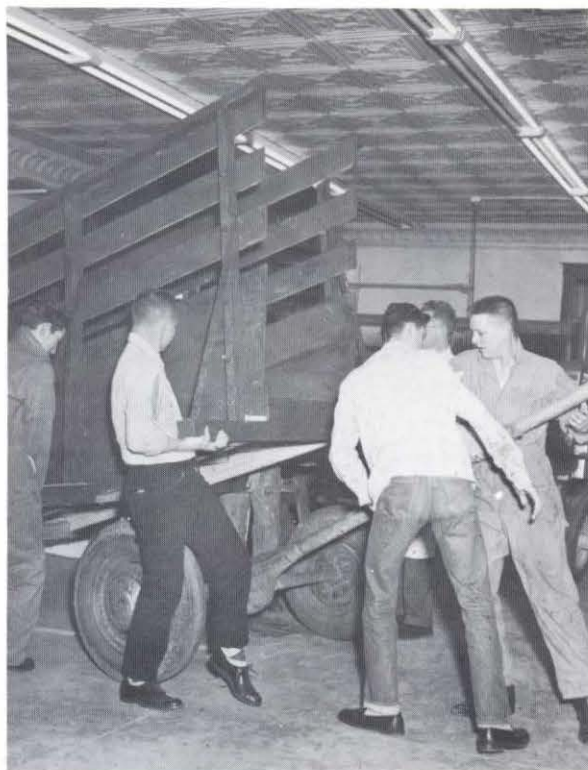

These students study animal husbandry, crops, soils, and farm credit and management under the supervision of Mr. Joe Horak. They take part in judging and field trips and also compete with boys from other schools in the district conventions.

Mr. Horak is selecting a film strip from the department's collection of film strips to present to his first year class. Waiting to see the strip are, left to right, Roger Smith, Larry DeWispelare, Gary Kroft, and Don White.

Keeping an accurate record book of his projects is one of the things that each vocational agricultural boy is required to do as part of his classwork. Here we find, left to right, Francis Codr, Jack Sweney, Julius Pelan, Louis Polacek, and Valerian Dobesh.

Gary Otto, facing camera, receives help from, left to right, Kenny Timms, Larry Sloup, Dwaine Davis, and Mr. Horak. They are putting wheels on the loader that Gary made in shop.

Identifying wheat is one of the things that is taught in voc. ag. Mr. Horak is showing, left to right, Don Taylor, Larry Sloup, Gary Otto, and Kenny Timms a sample of wheat which has been mounted for the purpose.

Library, Drivers' Training, and Physical Education

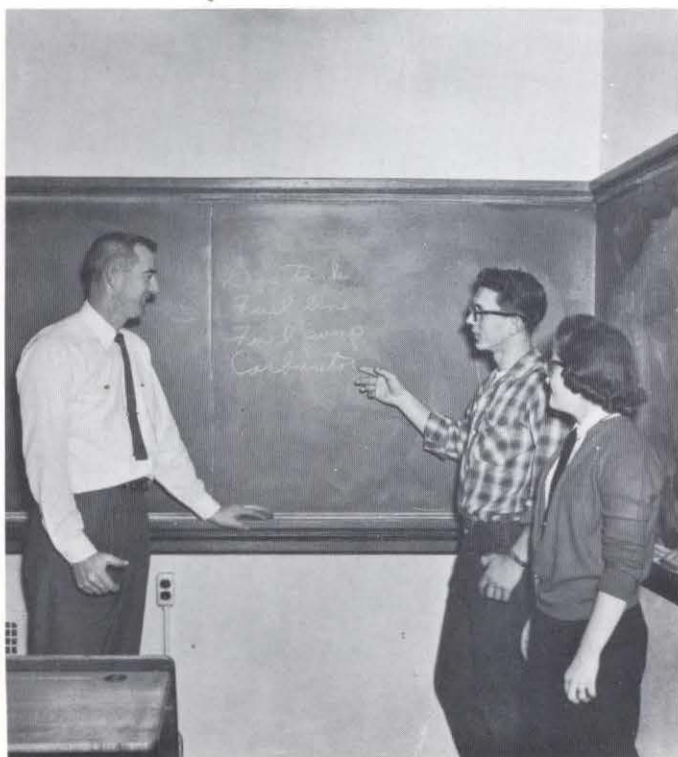

It is not just attaining new books that counts, but keeping them repaired and in good condition is another fine asset to a good library. Here we see Darlene Kucera and Marcy Palensky mending some of the library books.

David City High School has a very complete library. This library is kept well-stocked by Miss Lucille Hoffman and the girls who take library under her direction.

"Courtesy is contagious when you're behind the wheel" is one of the many slogans that are taught in the drivers' training class. Drivers' training is offered to the students under the guidance of Mr. Jim McConnell.

Good posture and body coordination are strived for in physical education. These classes are taught by Mr. Bilse Robinson and Mr. Hank Amend. Volleyball, soccer, softball, and badminton are some of the many sports that make up the physical education classes.

Gary Fricke is asking Mr. McConnell a question concerning the path of the gas line while Pat Smith looks on with interest.

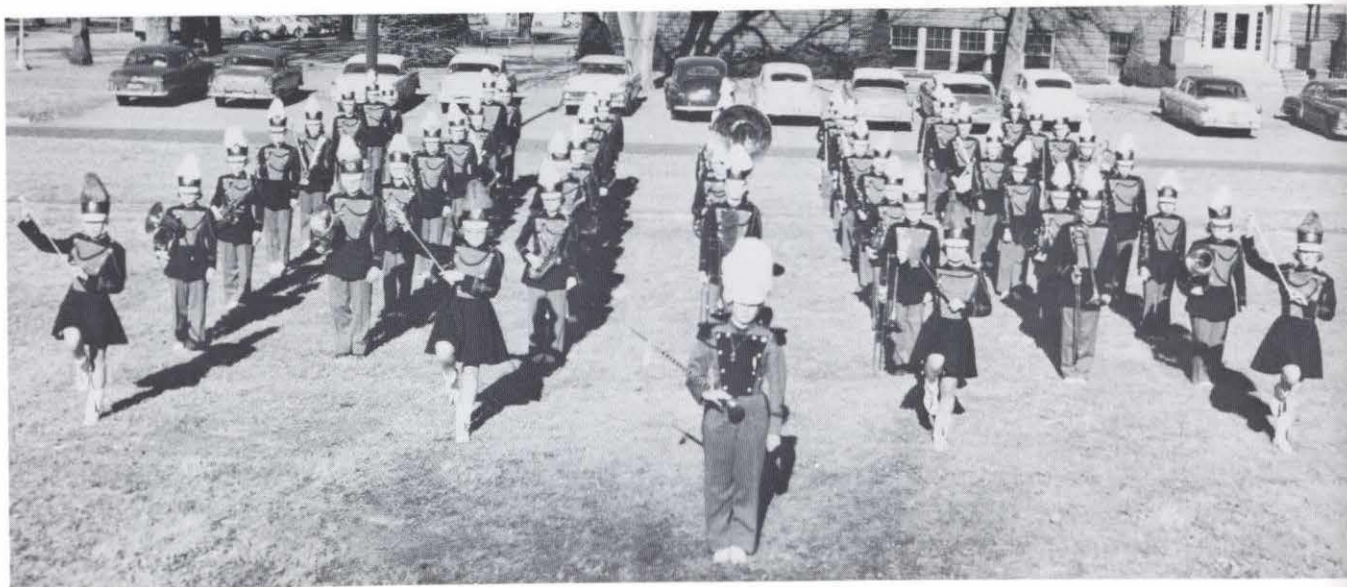

Examining the equipment they will use in physical education, are Katheryn Krov and Judy Miratsky.

ORGANIZATIONS AND ACTIVITIES

Members of the 1959 marching band stop from their many marching routines to pose. This year the band performed at all home game half-times, except one rain cancellation.

The opportunity to attend State Band Clinic was given to Jo Ann Sack and Arthur Kovar. They both achieved the honor of being in the Honors Band, which is a select group chosen from all the participating members.

Band

The 1959-1960 marching band has performed in several parades. Among these were parades in Schuyler, Fremont, and the State Fair. The marching band, also performed at half-time football games.

The concert band, made up of 67 members, presented a winter concert and a spring concert for the public. It also participated in the district contest.

After four years of hard work and completion of high school band work, we are sorry to have the senior band members leaving. They are, front row, left to right: Janet Miratsky, Deanna Hascall, Rose Marie Bohaty, Doris Kulhanek, Delores Stara, and Marjorie Hoback; back row, Gerhardt Backhus, Leonard Høvlik, Mike Hasik, Arthur Kovar, Jim Robins, and Kenny White.

Marching band was led by Drum Major Doris Kulhanek and majorettes, left to right, Ellen Rae Zima, Marianne Hookstra, Doris Kulhanek, Dixie Butler, and Sandra Schroeder.

Members of the 1959-1960 DCHS concert band are front row, left to right, Kathy Sabata, Carol Slonecker, Susan Zeilinger, Sharon Lnenicka, Deltrude Straka, Jane Zeilinger, Nancy Wright, Shirley Struebing, Mary Jo Vasina, Judy Brecka, Susanne Johnson, Sandra Sweeney; second row, left to right, Carol Polacek, Rose Marie Bohaty, Jack Wolfe, Mike McCracken, Janie Otoupal, Cheryl Soukup, Dianne Mahlin, Georgianne Kozisek, Jo Ann Sack, Deanna Hascall, Bruce Piller, Judy Boroviak, and Cleo Hoback; third row, left to right, Kenny Placek, Gerald Otoupal, Marvin Bohaty, Leonard Havlik, Darlene Svoboda, Eunice Cernohlavik, Delores Stara, Sandra Schroeder, Beverly Kudlacek, Louis Polacek, Marianne Hookstra, Kenny White, Jim Smith; fourth row, left to right, Jack Eberly, Doris Kulhanek, Linda Fadschild, Beverly Heins, Bob Gingery, Beverly Hascall, Jim Armagost, Sharon McDonald, Gladys Stara, Donna Struebing, Marjorie Hoback; fifth row, left to right, Jane Klosterman, Mike Jess, Bob Sabata, Gerhardt Backhus, Jim Robins, Val Dobesh, Alta Hoback, Pat Smith, Francis Coar; back row, left to right, Madeline Gingery, Tom Perrin, Steve Henk, Janet Miratsky, Donna Chubb, Mike Hasik, Arthur Kovar, Alan Roberts, and Director Mr. Dale Thompson. Not pictured is Junior Kulhanek.

This year the band with the help of Dale Thompson, David City High School's new band director, elected officers and council members. The officers and council members worked hard to improve conduct and create interest in the band.

The band department purchased a John Philip Sousa Band Award on which the name of the most outstanding senior member of the band is put. The receiver of the award, Arthur Kovar, was given a certificate in recognition for his outstanding achievement and interest in instrumental music, for merit in loyalty and cooperation, and for displaying high qualities of conduct in band.

One of the various small instrumental groups is the percussion group. They are, left to right: Tom Perrin, Madeline Gingery, Steve Henk, Janet Miratsky, and Donna Chubb.

The mad scramble we see in this picture is the scene of every band dismissal period.

The band council takes a moment from one of their regular meetings to have their pictures taken. Band president Arthur Kovar leads the band council at these meetings.

Choir

"Do Re Mi" is a familiar sound to anyone who passes by the vocal music room. All of the different vocal groups spent many hours in the music room practicing for different performances under the direction of Miss Germaine Ludwig.

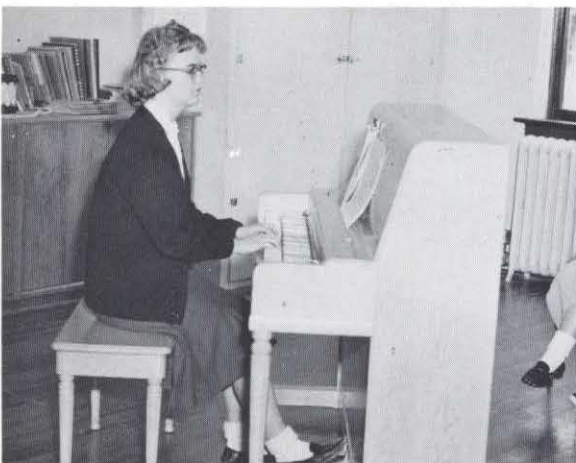

The 52 piece choir made several appearances during the year. It presented numbers in the annual Christmas program and at concerts. It performed for the last time at the commencement ceremony.

Other vocal groups spent many hours in the music room practicing for different performances under the direction of Miss Germaine Ludwig, including a glee with a membership of fifty girls, madrigal, girls trio, triple trio, and several solos. These groups also made performances for the public.

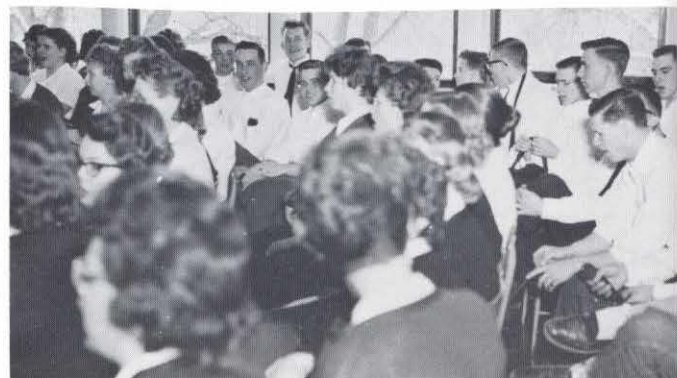

In April a selected number of these groups, including choir, will represent David City at the District Contest held in Wahoo.
