William Anthony Pospichal<br>"Bill"

We the Editors of the '61 Scout wish to DEDICATE this annual in memory of William Anthony Pospichal, a beloved member of the graduating class of '61. His high school days were cut short when the door of life was untimely closed on February 3, 1959. No longer can we retrace his steps through his high school days.

Each of you, however, can peek through the keyhole in your high school annual, the 1961 Scout, and the door of the forgetfulness will never be entirely closed to the memories of your high school days.

## the school board, and school workers . . .

Here we see the school board, who spend many hours planning for a successful year, at their regular business meeting. Seated left to right, Edgar Thomas, Mrs. Marjorie Foreman, Mrs. Lillie Magilton, Robert Gingery, Harold Zinnecker, Emest Davis, and Jerome Rehor.

Mildred Smith, our school secretary, has charge of many office practice girls in addition to her school duties.

Our good natured bus drivers are relaxing as they are having their picture taken. They are left to right; Bob Doner, Chet Smith, John Tomek, and Fred Forney.

Lunch must have been served by now for we see the cooks take time out to catch up on the latest bargains.

One of the tasks our janitors find important besides keeping the school clean is repairing the equipment to keep the school in tip top shape. Glen Ladwig is repairing a desk drawer while Bob Doner examines a pencil sharpener.

Class Work

Studying information that is put on the bulletin board are Gerry Kucera and Gary Polacek.

Quoting lines from Macbeth seems quite fascinating to Jim Howe and Marilee Haney.

Literature is always an interesting subject as the juniors have found out. Pat Kucera is looking at their literature book with eager anticipation.

## helped them to meet . . .

English is one of the basic subjects that students of DCHS haye to acquire, and only through constant review of this important language can it be mastered. English is important in every phase of life, no matter what your future plans may be.

This year we have three competent teachers helping to explain the fundamentals of English; Mr. Williams, Miss Skopec, and Mrs. Ham, all take part in the English program.

Having a panel discussion are the sophomores, left to right, Tom Perrin, Carol Lee Bohaty, Mike O'Brien, Betsy Byers, and Bruce Piller.

The business world is awaiting the graduates of the machines class. Here we see Judy Boroviak running the roatry calculator and Cheryl Soukup doing advanced ty ping.

Ask the Steno II girls if legal papers aren't hard to fill in. Here we see Mrs. Robinson explaining the fine points to the senior girls, left to right, Judy Boroviak, Liz Glock, Alta Hoback, Sandra Schroeder, and Mrs. Robinson.

## the challenge of the ...

Students of commercial find themselves very busy learning the correct procedures in typing, steno, office machines, and office practice. Each day they work for improvements so that they will attain places in the business world as secretaries and office workers.

Their teacher, Mrs. Kay Robinson, impresses upon her students the need for speed, accuracy, and neatness which they all try to improve.

As Beverly Heins runs the mimeograph Rosie Klement gives her assistance in office practice.

These students are typing their daily lesson with eagemess for a perfect copy.

Did your get that girls? That was five minutes at 60 words a minute. These Steno I girls know how important it is to acquire speed in taking shorthand in preparation for the business world, they are Jo Vasina, Joan Bohaty, and Phyllis Pieters. Mrs. Robinson is giving them dictation.

Both Jim Armagost and Jo Ann Sack seem quite amused by the record that they are listening to in Spanish II.

Ruby Kucera, librarian, finds valuable information for Georg Kozisek who is gathering information for a research theme.

Dianne Mahlin and Sue Hajek illustrate the conjugation of a Spanish verb in Spanish I.

## academic world . . .

Spanish is under the direction of Miss Skopec who tries to teach the students a spirit of worldwide brotherhood through knowledge of a foreign language.

The library is also under the supervision of Miss Skopec who has kept up the high standard of our library and in addition has increased the number of books and magazines.

Mr. Jerry Mullins has tried to train his driver training students into being competent drivers and true citizens of the road.

Among the many educational courses at David City is the driver's training course. The students learn the qualification and responsibilities of a good driver.

Examining a new bulletin board which they have helped put up are, left to right, David Shorney, Maxine Huisenga, and Steve Thomas. Kenny Ptacek seems to be enjoying what Maxine is explaining to the boys.

## where lie...

History is the valuable study of the past; through this study the students see how past happenings affect the future of the world today. The great events of today will be tomorrow's history. Mr. Williams and Mr. Gray try to impress upon their students in world history, American history, and American problems the importance of this subject in relation to the students future.

One of the assignments the history students have is writing a term report. After many weeks of research, Gary Otto, Sharon Lnenicka, and Marilyn Wynegar are ready to hand their themes in.

Jo Ann Vanis is pointing out the "Holy Roman Empire" during a World History class.

Looking quite confident that they have solved this algebra problem, Bob Gingery and Jane Klosterman look to the class for approval.

Finding equal radii of a line are Carol Polacek and Jack Eberly.

It seems to be a tough problem for these freshman math students to complete. Mrs. Couvalt is trying to explain to the group how the problem is done. Math students are left to right, Ron Nordmeyer, Chelys Svoboda, Judy Ray, and David McMeekin.

## the mysteries

Mathematics is one of the first things people come in contact with upon graduation. You need to know the basic fundamentals of math to get along in the up and coming world in which we live. All of the students at DCHS are required to take at least two years of math which is a big asset to them upon graduation.

David City offers four math courses, general math, algebra, geometry, ond advanced algebra. These classes are all taught by Mrs. Couvalt.

Madeline Gingery is illustrating to the class how to find the square root of 12 while Mrs. Couvalt looks on with approval.

Mr. Quick is explaining to Billie Jo Butler one of the many science problems that arise in general science.

Gary Otto is shown pointing out the places where iron ore deposits are found to Pat Weager.

## of science and math

Probing into the mysteries of the scientific world are the students of biology, physics, and chemistry. Senior science and general science are offered to give the students a general knowledge of science in the everyday world. These classes are under the supervision of Miss Swanson and Mr. Quick, who try to impress the importance of science during this modern era.

Looking over the situation to see just exactly how a complete circuit is connected is Mike Jess and Melvin From.

Here we see Miss Swanson explaining to Jack Wolfe and Eugene Supencheck the parts of the human brain.

Conducting another one of the many experiments the students of chemistry carry out are Marilee Haney and Kenny Byam.

These three freshman girls will all agree that sewing a skirt and blouse is no easy task; left to right, they are, Linda Ball, Janice Divis, and Pat Heins.

## and the understanding of . .

What can you do before the doctor comes? These sophomore girls know after practicing first aid in their classroom work. Vickie Kelley is taking Marilyn Eschliman's pulse as Gladys. Stara sterilizes a thermometer.

Homemaking could be labeled the subject of many topics. Everything from threading a needle to the most elaborate banquet could be learned by the girls taking homemaking. Not only do they have a chance to learn, but an opportunity to put their skills to an actual test in home experiences,

Each girl taking home economics realized the opportunity that awaits her if she learns well everything taught to her by Mrs. Stone.

Miss Betty James is shown demonstrating to the senior homemaking class the different uses of the gas stoves. She is displaying the foods she has just prepared.

Keeping the shop neat and clean is an important part of Voc. Ag. Shop Class. These freshman boys have learned that a cluttered up working area can be dangerous as well as unsightly.

## homemaking

## and farming . . .

The foundation of America is its agriculture. Farm products feed and clothe the people of the world as well as provide them with many comforts which makes living easier. Mr. Joseph Horack teaches the boys improved methods in crop raising and the best care of livestock.

The boys take part in soil judging contest as well as learn the different types of soil that is best for crop raising.

Making a trailor foundation are these junior boys working diligently. They are, junior boys working diligently. They are,
Dwaine Divis, Calvin Dietrich, and masked Marvin Bohaty.

If your electric motor is dirty, see these boys! Larry Sloup is demonstrating the proper way to clean an electric motor as Don R̉omshek explains each different step.

Here we see a shot of the Ag. II boys doing various jobs that they have to do in completing their projects. They are, left to right, David White, Bemard Divis, Mr. Horak, Gerald Helgoth, and Donald Moravec.

Basketball is just one of the many games the boys play in physical education. LeRoy Kratochvil is shooting for a free throw while the other team members watch.

## in the world of tomorrow

Industrial arts is one of the interesting and helpful courses that the boys of DCHS can take to further their education.

Mechanical drawing is a course offered to senior boys interested in the art of drawing. Both of these courses are instructed by Mr. Bilse Robinson.

Physical education for boys has been quite a recent activity added to the curriculum. This gives the boys who do not go out for competitive sports a chance to become familiar with many types of sports. Mr. Mullins helps these boys to understand the right way these games are played.

Pictured are three boys that take mechanical drawing. These boys are working carefully not to draw any of their lines crooked, they are, left to right, David Shorney, Paul Schlautman, and Gary Icenogle, back desk.

"Learning to build," might be the motto of the industrial arts class. James Weverka is busily working on his project in industrial arts.

## The Pep Club cheered . . .

The Pep Club spurred the DC team on to a more than successful season in football and basketball. They sponsored the long-awaited homecoming party and created an air of pep and enthusiasm dur* ing the entire year.

Excitement was raging high as the candidates for homecoming king and queen paused to have their pictures taken; left to right they are; Ernie Stara, Denny Siedel, and Mel From. Front row, Dianne Mahlin, Jane Zeilinger, and Bev Heins.

The Scoop Staff of equal importance has done a good job keeping the students informed from day to day on the happenings of the school. The SCOOP is edited every three weeks.

Each year many new students are added to the membership of Quill and Scroll. This is an honor society in which students may join because of their outstanding work in the journalism field. Each student joining Quill and Scroll must maintain a high scholastic average and be in the upper one-third of his class.

One of the student council activities is planning parties. Pictured are several girls decorating for the Fall Student Council Party.

The student council presented patriotic programs during the year to help commemorate the lives of great people in our history. Georg Kozisek gave the life life history of George Washington.

This year the Scouts tallied one of their most successful football seasons. With a return of 8 wins and 2 losses we won the Platte Valley Conference Trophy.

Mr. Mullins, head coach, had 30 boys out for football this year. Mr. Robinson and Mr. Gray also helped to get these boys into condition for the football season.

Say coaches, is the ball that interesting? Our two football coaches for this year were Jerry Mullins, head coach, and Bilse Robinson, line coach. They led our team throughout a great season.

At the end of a victorious game and season Mr. Mullins was raised high on the shoulders of Jim Howe and Buddy Roberts, while the cheering student body followed. This was the game the Scouts defeated Newman Grove 73-6.

These senior boys played their last game during the 1960 football season. Left to right, they are, Dave Bell, Ernie Stara, Mel From, Steve Thomas, Larry Sloup, Gary Otto, Don Focher, Bud Roberts, Denny Siedel, Roger Svoboda, and Jim Howe.

Everyone should congratulate Mr. Gray and the team for their fine showing not only in tournament games, but all season.

Jumping high to get those two points is Jim Howe, while Dinges (41) and his Osceola bulldogs hope the attempt is not successful. We have news for you, it was!
