An all boy's school?

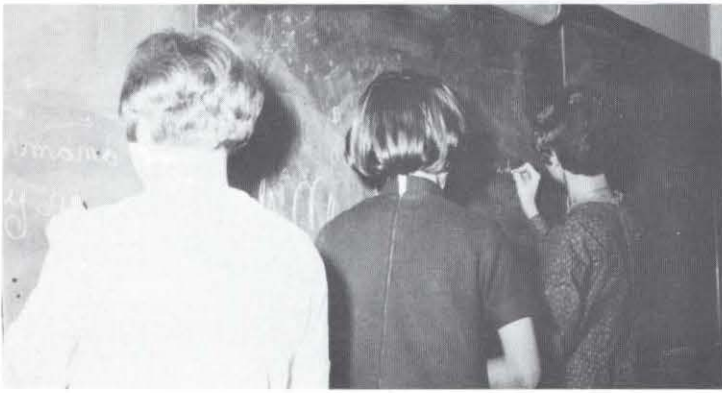

Study hall is for studying?

Here's looking at you!

The image features a minimalist design with a large black rectangular area on the right and a white area on the left. The white area is divided into three vertical stripes of different widths. The word "CLASSES" is printed in white, bold, sans-serif capital letters on the black background.

CLASSES

Students in Spanish I often attempt to write Spanish on the board and give Spanish speeches.

Steve Schmit, Lea Rumery, and Norman Kaspa seem to be interested in new American literature.

Brenda Janak and Myron Marquis are ambitiously studying English II.

LANGUAGE Mrs. Johnson and Miss Machmuller teach English, a subject we will use every day of our lives. Many of the students are taking Speech, taught by Mrs. Johnson, to enable them to speak well in all situations. Mr. Maret teaches Spanish, which is an interesting class and the only foreign language taught at D. C. H. S.

These Seniors are presenting one of the many informative panel discussions which are given in English IV.

Jim Sanley is giving a speech in English I.

Debbie Davis is presenting a demonstration speech in which she explains how to wrap a present.

In World History classes, students often have to write and give reports.

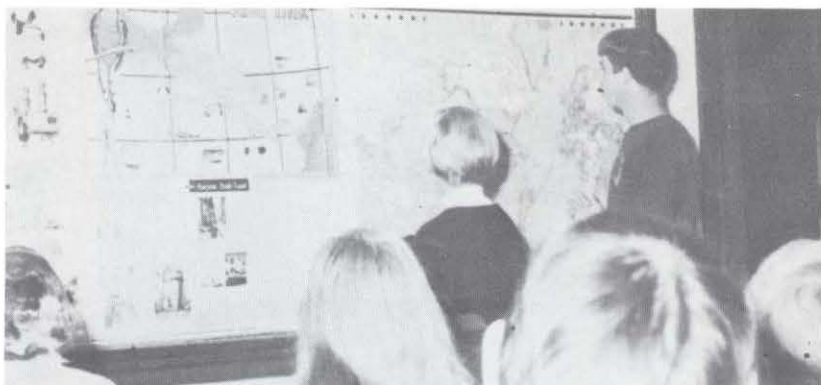

Students learn how our great U. S. became the nation that it is, in American History.

SOCIAL SCIENCE Miss Alberts, Mrs. Lawson, and Mr. Maret are history teachers at the DCHS establishment. Miss Alberts teaches American History, Modern Problems, Government, and Sociology. Mrs. Lawson teaches World Geography, and Mr. Maret teaches World History and World Geography.

History is very important in the lives of all Americans, as learning from the past promotes better understanding of the future.

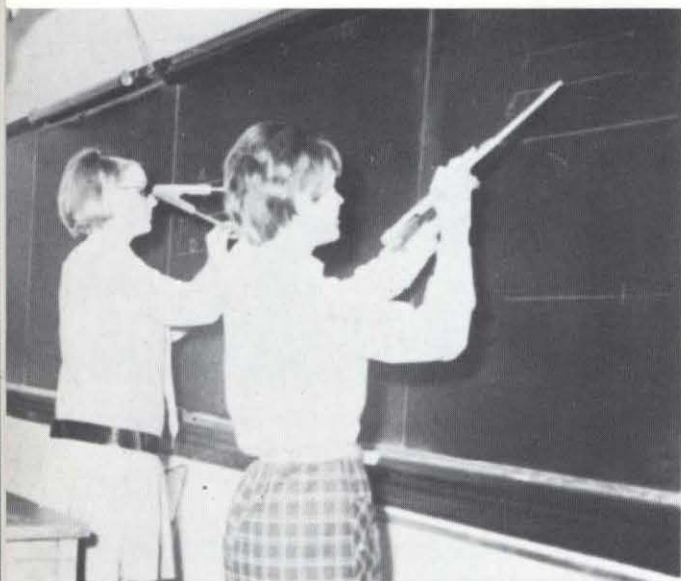

Gerald, a Federalist, and Kristy, a Nationalist, are preparing to attend County Government Day.

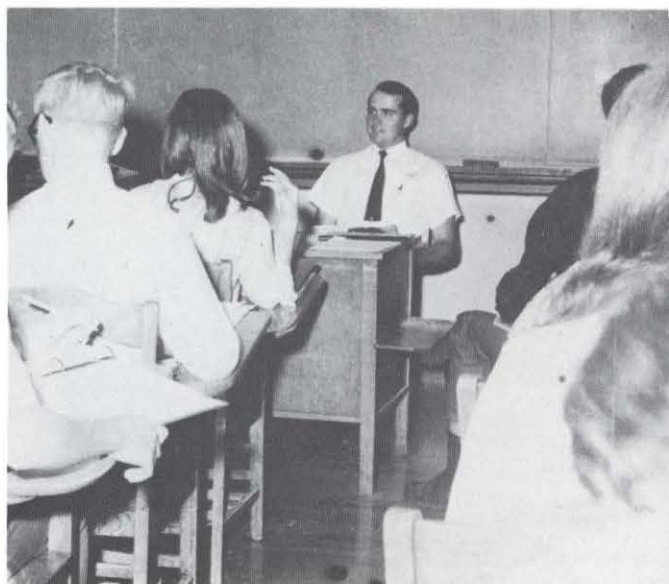

Map study is an important part of World Geography.

The '68 election is deep in the minds of these energetic students taking Modern Problems.

Kelly Hansen and Patty Romshek are constructing geometric figures.

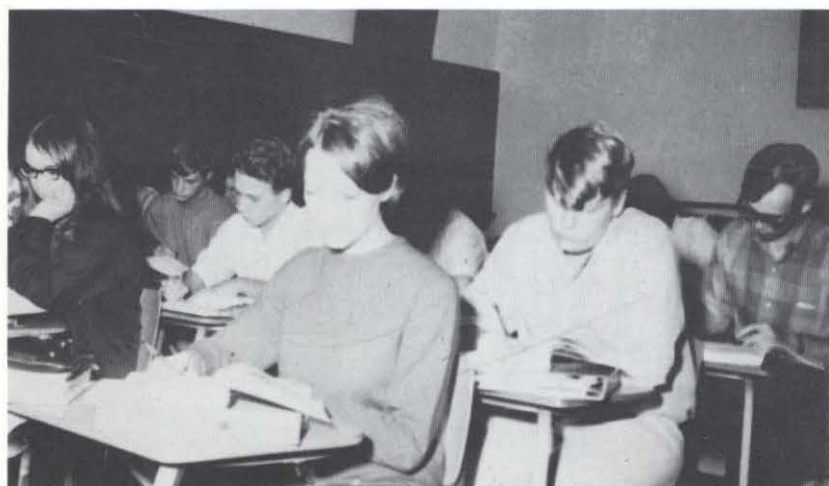

Discussions in General Math I prove to be helpful in understanding the course.

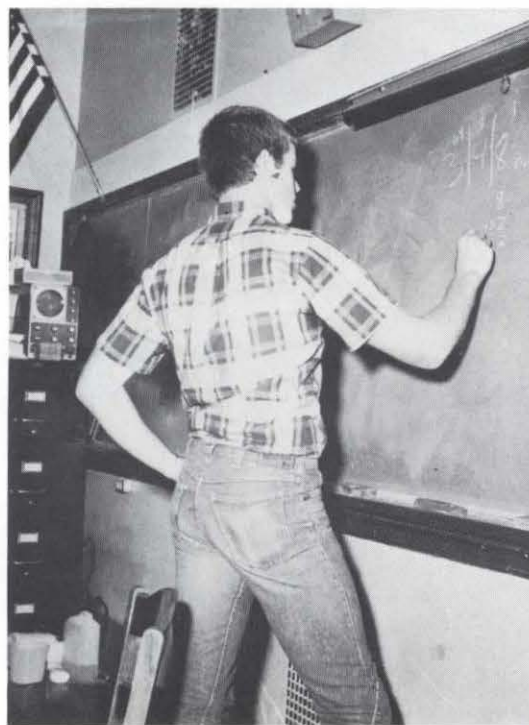

The students in Algebra I learn different kinds of algebraic equations and formulas.

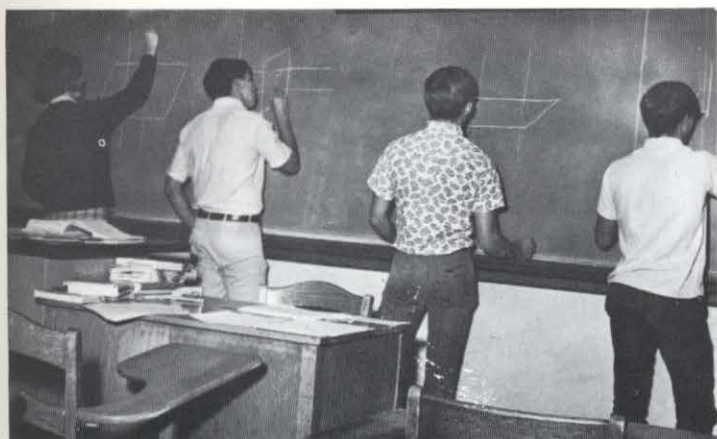

MATH Algebra I, Geometry, and Algebra II, three of the math courses offered at D. C. H. S., are taught by Mrs. Covault. Through mathematical courses you can go into the fascinating world of numbers and geometric figures. Mr. Koehn teaches two other math courses. General Math I and General Math II, a new course offered this year, are for the beginning math students.

In Algebra II students learn advanced problems and terms.

Don Cook is working a problem in General Math II.

These students are constructing the basic principles studied in Trigonometry.

PHYSICAL SCIENCE This year our science department is headed by Mr. Rasmussen and Mr. Koehn. Mr. Rasmussen teaches Biology, Chemistry, and General Science to the science minded students. He explains functions and structures of various organic materials, and also the basics of science. The Chemistry class spends their time learning various experiments in lab, and doing some research. Physics and Trigonometry are taught by Mr. Koehn. In these classes, math and science are studied on a higher level.

Barb Fricke is explaining human muscles during Biology class with the assistance of an amazed Doug Johnson.

The scientific minds of Vern Vanis, Cal Novell, Pat Fricke, and Jean Trowbridge are hard at work during a Chemistry lab.

Physics students must spend a lot of time preparing assignments.

Lynn Krael and Diane Lanc are helping Mr. Rasmussen prepare an experiment for General Science.

The freshman Home Ec. Class is intensely listening as Mrs. Davis explains the fundamentals of sewing.

Here we see Joyce Juranek and Pat Romshek making a strawberry pie.

This is the grownup Sophomore Home Ec. Class.

Mrs. Fadschild is enjoying a delicious meal prepared by the Senior Home Ec. Class.

HOME ECONOMICS Teaching Home Ec. this year are Mrs. Davis and Mrs. Struebing. Mrs. Struebing teaches the Jr. High girls, while Mrs. Davis teaches Freshman, Sophomore, and Senior Home Ec.

They teach girls the fundamental principles for good baking, cooking and homemaking.

Mrs. Heller is student teaching in Home Ec.

Galen Bock is preparing to construct a piece of furniture in Shop II.

Mark Bohaty, Arthur Warren, and Steve Loveless study research material while Joe Smith and Jim McDonald continue to look for information in Voc. Ag. II.

VOC. AG. AND IND. ARTS At D. C. H. S., the boys can learn many useful things about a farm. In vocational agriculture, they can learn about soil conservation, farm budgeting, proper animal care, mechanical repair, and various other things. Mr. Naber teaches the three Voc. Ag. classes. Shop I and Shop II are also offered at David City. The boys learn to work with wood and they also get to make projects which gives them good experience in constructing objects on their own. Mr. Retzlaff, the Shop teacher, sees to it that everything is made correctly. Mr. Retzlaff also teaches Mechanical Drawing, a class in which students draw various designs and structures.

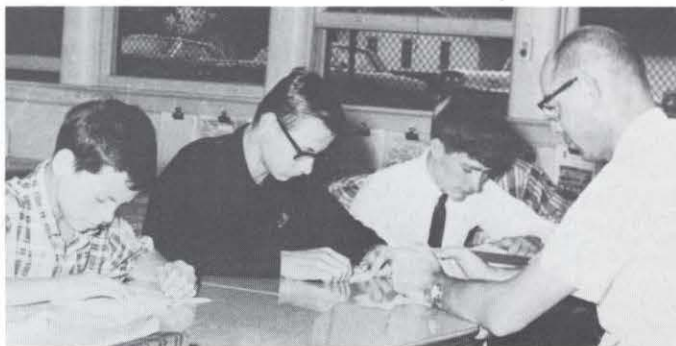

Advanced agriculture is studied in Voc. Ag. III.

Our Mechanical Drawing students strive to draw straight lines.

This Shop I class is learning to control the machines and work with wood.

An agricultural career begins with study in Voc. Ag. I.

In Office Machines, the girls learn to operate business machines.

The girls in Steno I read and write steno.

Betty Havlena and Monica Hlavac are reading shorthand notes in Steno II.

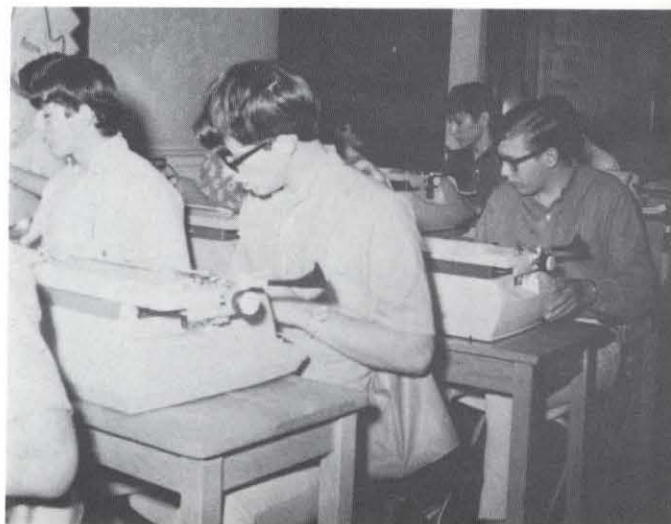

BUSINESS Students interested in the business world take courses taught by Mrs. Arnold and Mr. Bolton. Mrs. Arnold teaches Typing, Steno I and II, and Office Machines. Although Typing is not a required course, most of the students take the course to help them prepare various assignments in other classes. Two new courses, General Business and Bookkeeping, have been added to the business course at D. C. H. S. this year. Mr. Bolton teaches both new courses.

Bookkeeping students practice various business techniques.

Students in General Business are studying for a test.

Typing students type many kinds of problems.
