1974 marks the 100th anniversary of David City Public High School and 100 years of teaching, learning and excitement. Many important events have occurred during the school's history, yet the happenings of your own school years are the most important to you.

The past is gone but still the memories are there. Remembering the past will help us live for the present. The past fills our present with experience, understanding, and awareness.

The present is our most important part of our life. Living our fullest — that's life's basic goal.

The future lies far beyond but not as far as we think. Before you know it, the future will be here. Will we be prepared?

Remembering the past, enjoying the present, and preparing for the future, is a goal we must all try to strive for.

Let us first remember the past . . .

The old high school built in 1888.

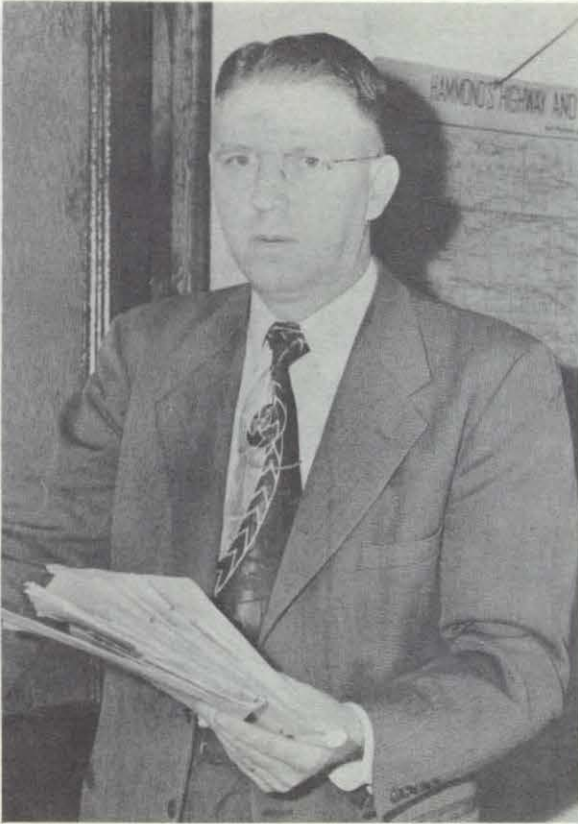

The present day high school.

The buildings which have loaded people minds with tons of knowledge—now and in the past. Remember your high school years for they are the best years of your life.

Shown here is the present day elementary school built in the 1960's.

### "The Good Old Days Were Not For Female Teachers"

In 1915, female teachers were expected to obey rules like these:

1. You will not marry during the term of your contract.
2. You are not to keep company with men.
3. You must be home between the hours of 8 P.M. and 6 A.M. unless attending a school function.
4. You may not loiter downtown in ice cream stores.
5. You may not travel beyond the city limits, unless you have permission of the chairman of the board.
6. You may not ride in a carriage or automobile with any man, unless he is your father or brother.
7. You may not smoke cigarettes.
8. You may not dress in bright colors.
9. You may under circumstances dye your hair.
10. You must wear at least two petticoats.
11. Your dresses must not be any shorter than two inches above the ankle.
12. To keep the school room neat and clean, you must: sweep the floor at least once daily; scrub the floor at least once a week with hot soapy water; clean the blackboards at least once a day; and start the fire at 7 A.M. so the room will be warm by 8 A.M.

In Have A Good Day

My! How times have changed . . . back in 1874 classrooms were filled with long dressed teachers and monotonous book work. Nowadays learning is more exciting and students and teachers both dress—to each their own.

The Modern Class performed a mock trial to learn about our court system. This is just one way in which learning can be both fun and beneficial.

Past . . .

As long as there are schools and students there will always be activities. Events to simulate students' creativity, imagination, ambition and talent. Oh maybe we don't play and sing the same songs in band and choir or cast the same plays but the basic idea of involvement was present 100 years ago and certainly is present now—Just look around—students are always doing something.

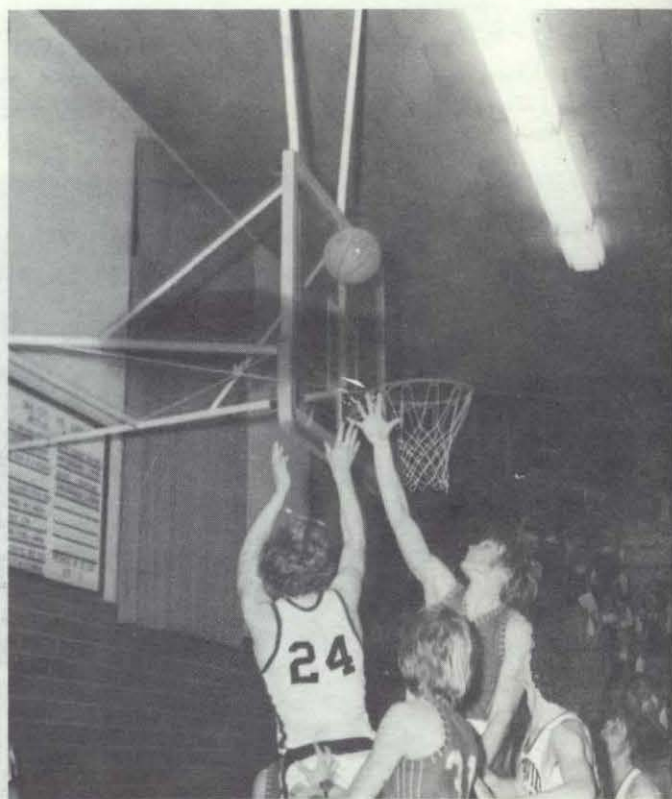

. . . Present

Going hand in hand with our school life is our athletic events. The challenge in competing, the joy of winning and sportsmanship have been around for as long as anybody can remember. Oh maybe in the past there wasn't huge stadiums and week-long tournaments, but there was competition—and there always will be. In the past high school athletics was primarily for boys but girls' track and girls' volleyball has brought about girls involvement in sport action in our school and there's more to come. We've only just begin to compete.

Does a locker room ever change?

Basketball is just one of the sports at DCHS now.

Our lives must not end with school. We must socialize . . . get to know people and places. Learn to get along with people and have a good time in the process. Social events through the times have changed from box socials to rock concerts, but the basic purpose of having fun remains the same. Learn to live—it's certainly worth it.

In the good old days "this" was the in thing to drive.

Transportation of nowadays.

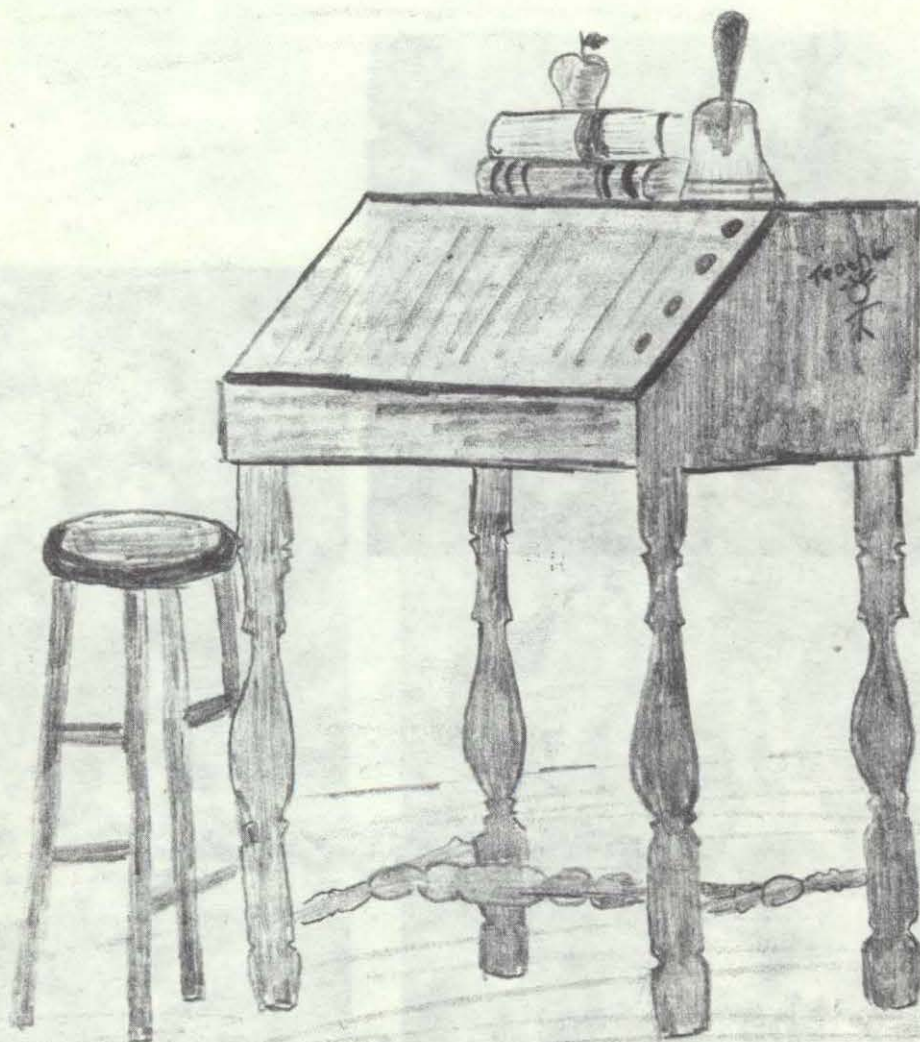

**Enjoy the present....**

**it only occurs once in a lifetime.**

# Seniors

We've finally made it. Seniors at last! We have grown as a class through our four years of high school. Working together, achieving our goals, and making new friends. Four short years to gain knowledge, become involved, and to have loads of fun. Upon graduation, we will each go our separate ways—some of us keeping in touch, some of us never seeing each other again. But, yet the memory of our high school days and the class of "74" will always remain with us. Who could ever forget!

# School Life

*Connie Prochaska*

Life in school is a variety of happenings. Besides the normal routine of classes there is always something that happens to break the monotony. An explosion in Chemistry, a trial in Modern Problems, pep rallies and a difficult test make you realize that school isn't a dull place. Life is what you make it and school life is no different. You can make school both enjoyable and rewarding by getting involved. We all come to school for the basic concept of gaining knowledge but everyone had a good time at least once in a while. Friendship, involvement, character, knowledge, rewards, and action are just a few words that can describe your school life.

An exciting experience for DCHS this year was foreign exchange student Maria Compos. Maria came from Brazil and made her home with Rev. and Mrs. Dinsdale here in David City. It was both a pleasure and an experience for the DCHS students to become acquainted with a foreign exchange student. We hope Maria enjoyed herself and feels that her experience was rewarding.

Maria was named an honorary member of Pep Club. Here we see her with the Pep Club at our basketball districts.

The annual Science and Art Fair was held on March 12. On display were various Science and Art projects.

The Scouts first-round opponent was the Schuyler Warriors.

The Scout roundballers displayed a great effort in the Basketball Districts at Midland College in Fremont. Although the score came out on the short end for us, the basketball team was surely the pride of our school.

"You've got to be a football hero to get along with the beautiful girls", is just one line from the skit put on by the Swing Choir.

A new course this year was "Bachelor Living". Here the boys pause preparing their delicious food long enough to pose for a picture. The boys rated their food as always being scrumptious.

Assemblies provided both knowledge and entertainment for the students and faculty.

Don't Jan and Ron make a pair of attractive cheerleaders?

The Modern Problems classes held a mock trial. Here comes the judge Susie Kaufmann.

Hampered by the unfinished gym floor the P.E. classes try their hand at chess.

The Varsity cheerleaders put on several skits at the pep rallies. Above we see one of them.

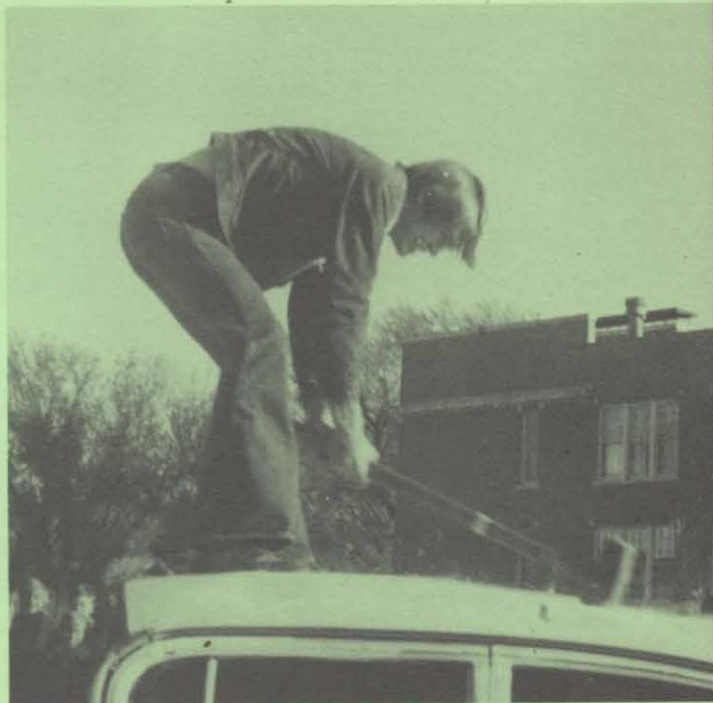

To commemorate the school's Centennial the FHA decorated the Christmas Tree for the Home Ec. room with ornaments just like 100 years ago.

That's the "spirit" Peggy.

As Pam would say, "Here I am, take my picture."

# Volleyball

Volleyball made its debut at DCHS this fall with great enthusiasm. Over 30 girls started practice a week before school on a court set up outside! It was this initial enthusiasm combined with continued improvement throughout the year that made what seemed to be a disappointing year record-wise (3-8), turn into an enlightening year of building a strong team for next year.

This years experience for all the girls in winning, losing, and general playing only increases enthusiastic optimism for next year.

David City High School Girl's Volleyball team: Front row—left to right—Renee DeWispelare, Betty Otoupal, DeeAnn McGee, Susie Kaufmann, Karen Kovar, Phyllis Hosch, Kathy Kroft, Mary Janak, Cherie Kobza, Julie Svitak, Cheryl Lnenicka, Holly Lamprecht and Joan Kozisek. Second row—Lisa Kobza, Chris Ehlers, Marg Martin, Janice Marquis, Yvonne Kucera, Beth Hansen, Nancy Marquis, Raleen Janak, Holly Den, Cindy Steiner, Jean Zeilinger, Linda Marquis and Teresa Vanis.

Coach Marc Story

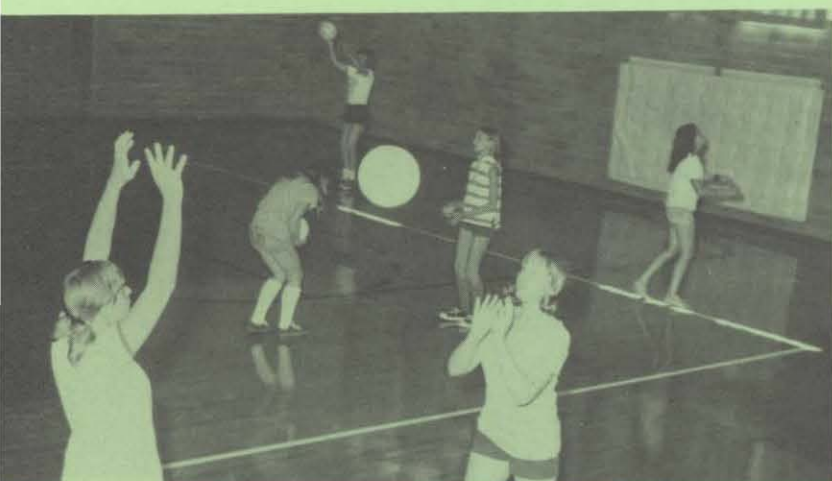

Spike that ball, Sue!

Shown at the left: Cindy Steiner exhibits the perfect form for volleyball ballet and Janice Marquis shows us how to serve.

Hard at practice, the girls are setting, serving and catching the ball.

On to the court for another round of action.

Here we are viewing the perfect? form for a serve. The questions in our minds are: Will the ball clear the net? Will it go under the net? Or will it hit someone on the head?

# A rally to remember:

Mr. Story lends an ear for a kiss from one of the cheerleaders, who could hardly wait for this moment.

The male members of DCHS put on a pep rally for the volleyball team. Below are shown the four eyecatching cheerleaders. Aren't they attractive! ? ? ? ?

Shown above is the volleyball team in an important huddle at the Central 10 tournament. The girls finished fourth in the tournament and were the pride of the school.

Confidence now Holly! You can do it.

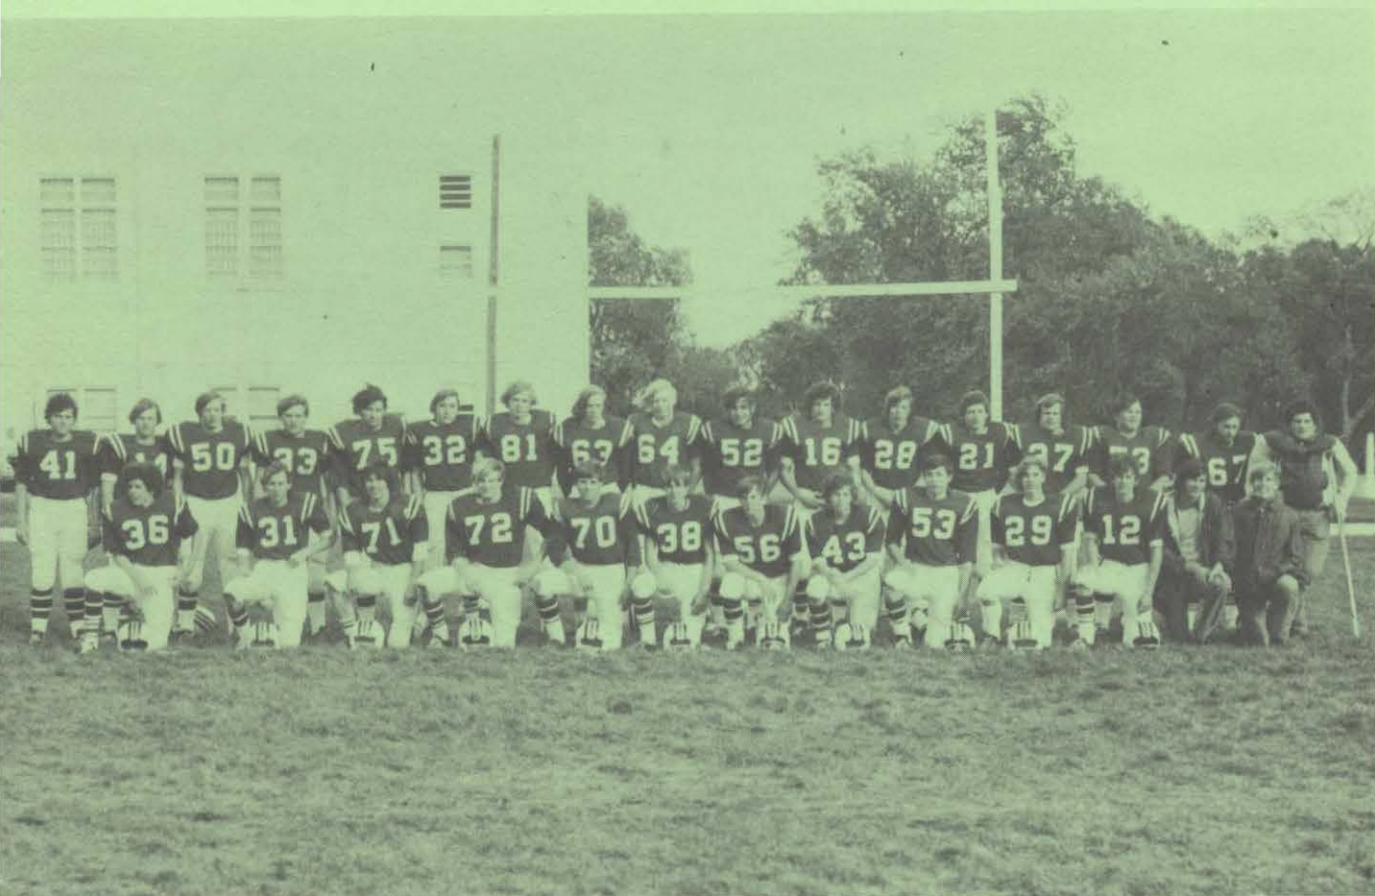

# Football

Coaching this year's football team were Head Coach Dave Montag and assistant coaches Roger Uecker and Larry Rasmussen.

The determined Scouts truck forth for another six points.

The 1973 David City High School Football Team: **Front row**, left to right—Jeff Okrina, Larry Rudolph, Loren McElravy, Ken Allen, Tom Svoboda, Dick Romshek, Ryan Comte, Lynn Glock, Jack Morris, Jim Havlena, Mike Hecker, Ron Prochaska (Student Manager) and Galen Svoboda. **Second row**—Steve Simanek, Steve Crandell, Gene Johnson, Roger Comte, Terry Hilderbrand, Russ Daro, Mark Gruenewald, Jim Deavers, Jesse Hopkins, John Schroeder, Rick Martin, Kevin Hlavac, Dave Moeller, Doug Wright, Mike Codr, Ed Birkel and Martin Kallenbach.

John shows us how all work and no play might make him a dull football player.

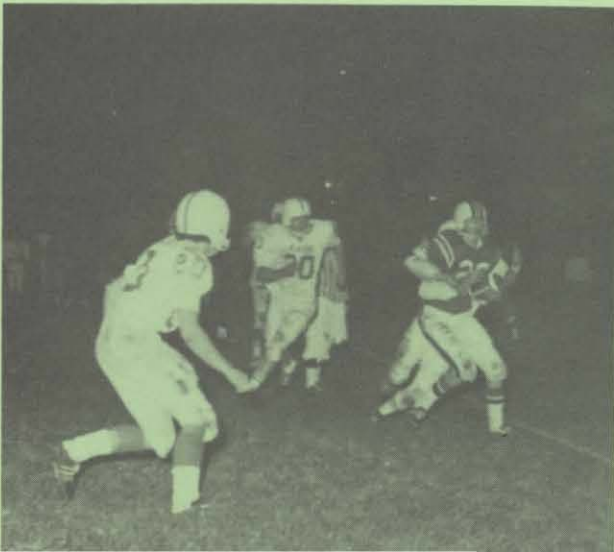

Doug Wright's form on the two point conversion attempt makes the game seem even more thrilling.

The David City High School football team finished the season with five wins and three losses. Coach Montag can always be proud of the boys' efforts during the whole season. Hard work, determination and school spirit were key factors of a successful season.

Both from the air and on the ground you just can't put a good Scout down.

Steve Crandell and Gene Johnson drag down the opponent.

The shots on this page show us the action and effort the team put forth to make a winning season.

It takes two to pull a member of the Big Red Machine down.

The kick off team sends off the kick for the opposing team. Try to handle that!

Coaches Koehn and Butler fix up their wrestler.

"Tiny" wins another one.

Smitty tosses the ball up for another two points!

Is this a wrestling meet or a P.E. drill?

Teamwork, timing, and long hours of practice are required to make that dream of victory come true on Friday night.

These pictures show executions which are required in girl's track. Jumping jacks, weight lifting, clock watching, jogging and the flexing of muscles are just a few sights you'll observe at track practice.

Keep those knees high! 1,2,3--1,2,3,

Round and round she goes and where the discus lands no one knows. Sometimes it even goes over the fence.

These action shots show us that it takes a lot of concentration, hard work and determination to play golf.

You'd better take cover when Jim swings his club.

It's really not all that bad, Wayne.

Taking it easy!

Hole in one?????

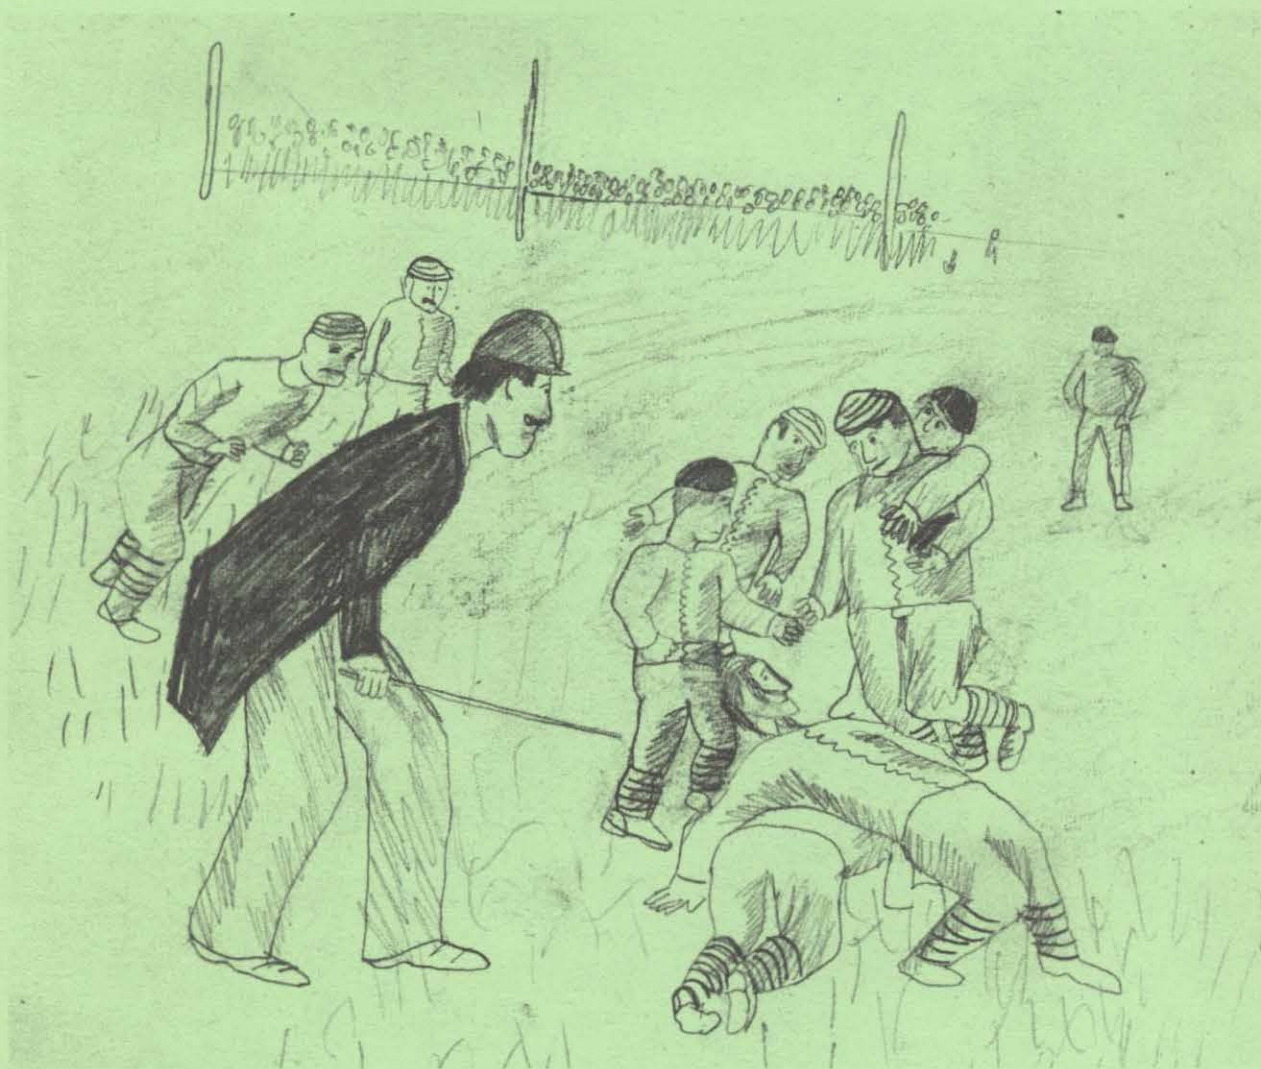

Aim and swing.

Take it easy on the tree, Ryan!

# Pep Club

The backbone of our school spirit lies within our Pep Club. Never fail attendance at our sport events cheering our boys on to victory, pep rallies, sign making, singing the school song and chanting the cheers are just a few ways the Pep Club promotes spirit throughout the school.

# Preparing For The Future

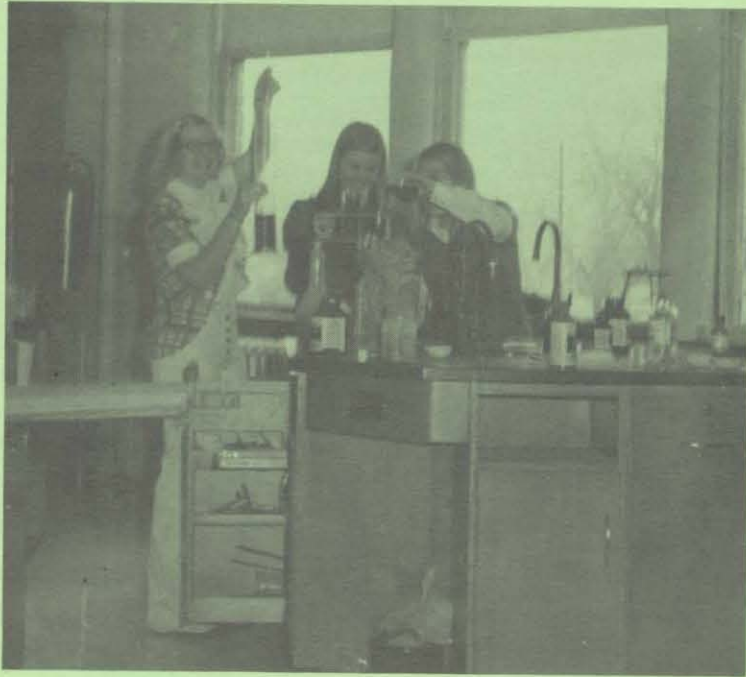

Mike McCoy

Your future is an open door. . . .

. . . Are you prepared to enter?

Experimenting in the lab and family are just a couple of ways school helps us to prepare for the future. Who knows maybe one of us will discover the cure for the common cold by using our lab techniques learned in biology and chemistry.

The future basketball team preparing for the future as youngsters.

Learning . . . a way of preparing.

### Seeing the Best

Believe in the future though dark be the sky.  
Stand up to the storm and the clouds will roll by.  
Believe in yourself and your power to plod on . . .  
when first inspirations have faded and gone.

Believe in tomorrow and never despair.  
Hold on to your faith when a cross you must bear.  
Believe in God's world and let that be your guide . . .  
live by it, walk by it, turn not aside.

Believe life is good and it won't let you down.  
when tempted to doubt it, to fret and to drown.  
Believe in the best though it's hidden from view . . .  
for this is the faith that will carry you through.

Patience Strong

What lies in the future is a question that can be answered only by  
ourselves. Prepare for the future . . . for now is your chance.
