**THE EDITORS OF THIS
YEARBOOK CHOOSE TO DEDICATE
THE "SCOUT" TO THE IDEALS OF
AMERICAN EDUCATION, IN HONOR
OF THIS YEAR AS THE YEAR OF
OUR BICENTENNIAL.**

If, almost on the day of their landings, our ancestors founded schools and endowed colleges, what obligations do not rest upon us, living under circumstances so much more favorable, both for providing and for using the means of education!

Daniel Webster

A child's education should begin at least
one hundred years before he is born.

Oliver Wendell Holmes

My story is only a story of the chance in
life which America brings to all boys and
girls.

Herbert Hoover

The classroom should be an entrance to the world, not an escape from it.

John Ciardi

Education is a kind of continuing dialogue,
and a dialogue assumes in the nature of the
case, different points of view.

Robert M. Hutchins

The schools of democracy should be concerned to give each child an opportunity to express himself in that kind of purposeful functioning which is mind.

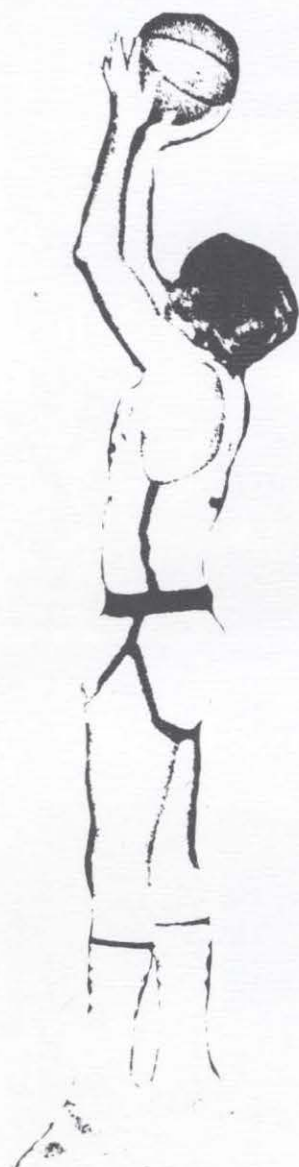

John L. Childs

The goal of education is not the pursuit of
knowledge for the glorification of the mind,
but for the purification of the heart.

HOMECOMING DAY

October 10 was Homecoming Day for the David City High Scouts. The day was filled with the hustle and bustle of underclassmen preparing for coronation, the band tuning up for the parade, and the excitement of guessing who would reign as king and queen over that night's festivities. Unfortunately, the Scouts suffered a defeat to the Albion Cardinals, but the old school spirit still remained as Queen Marg Martin and King Tom DeWispelare took their places on the throne at the Homecoming dance. It was truly a day to remember!

LIFE STUDE

UDENT

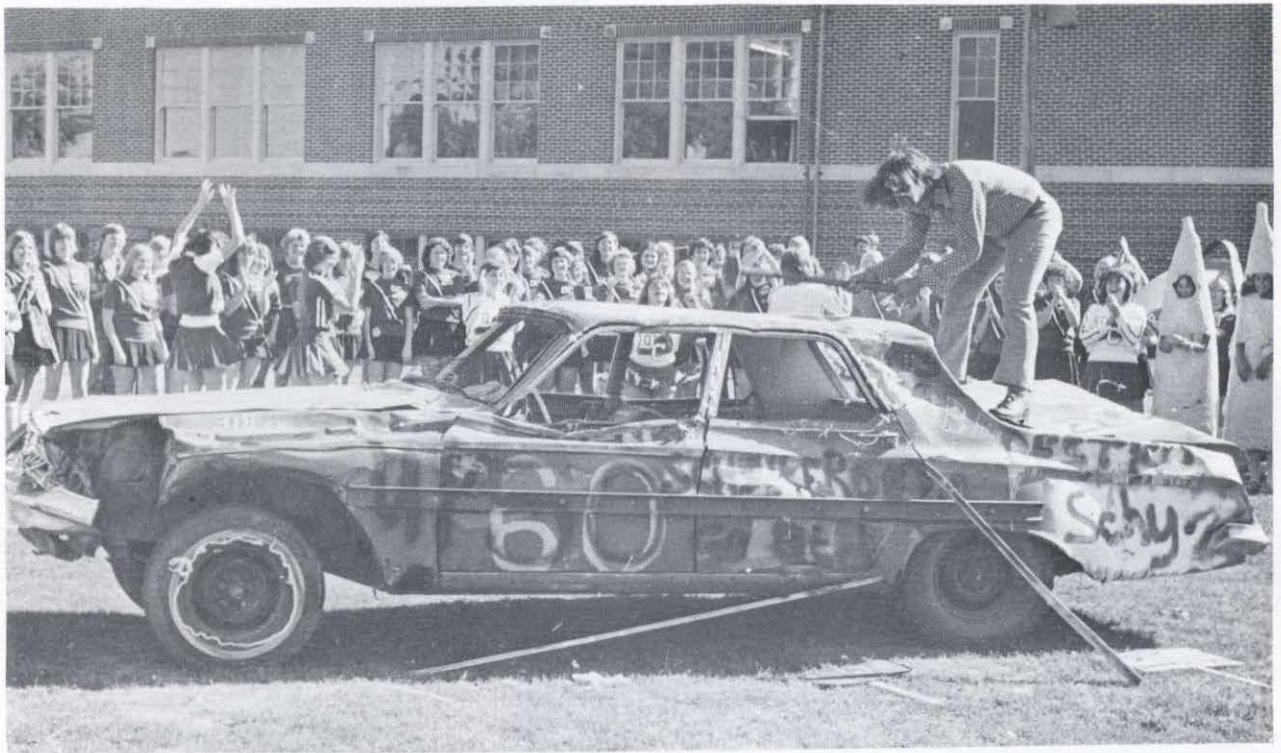

A typical day at D.C.H.S. begins with the arrival of an enthusiastic group of youth...

striving to continue a meaningful education...

at this institute for learning.

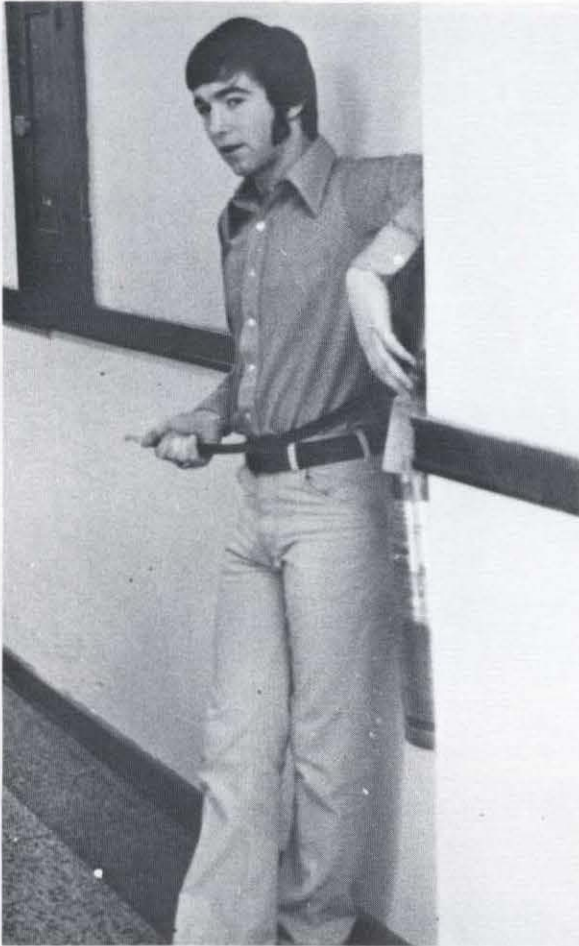

Wait! Wait! Paul, we found
your keys.

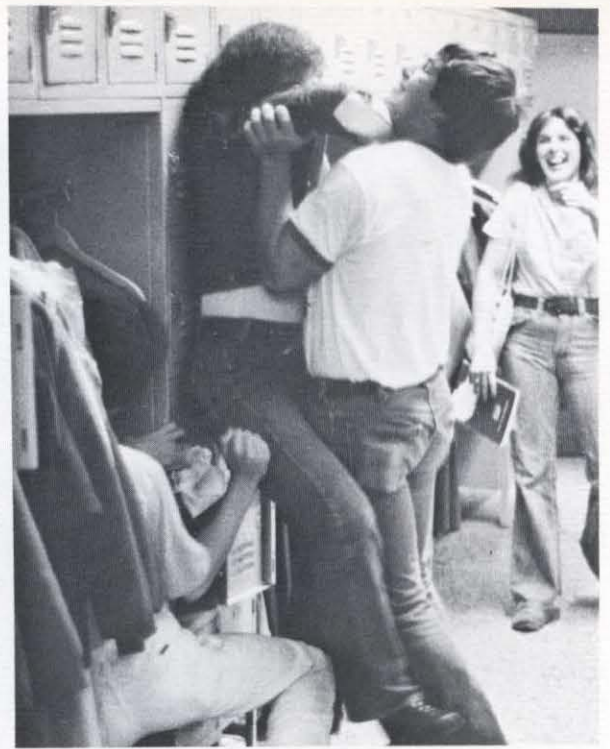

Mally and Butch are calmly discussing who has
first rights to this particular parking place.

Looks like Rick got a bit ROWDY on his
Kawasaki.

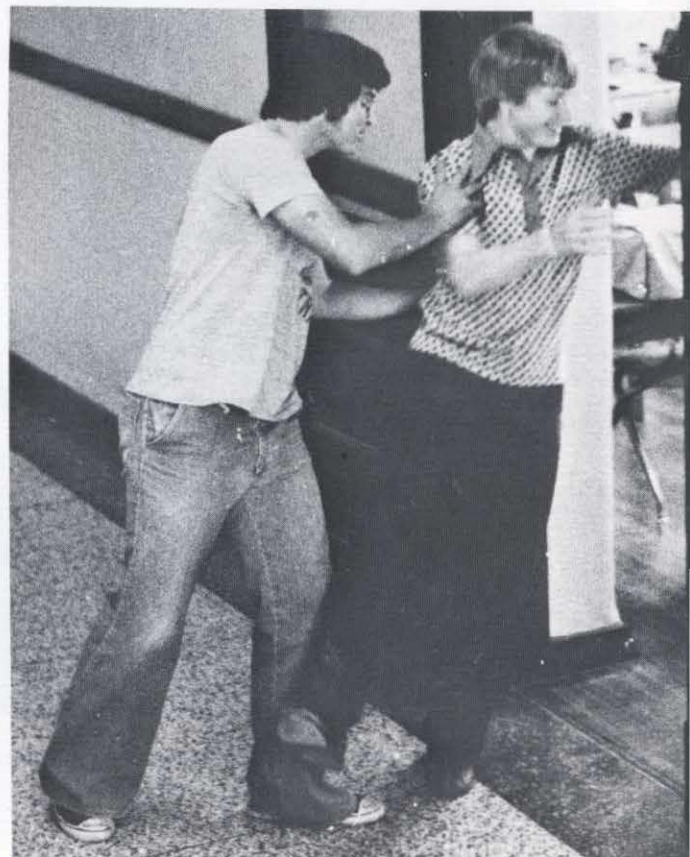

Making class on time can be tough, right Jack?

First you must fight your way to your locker...

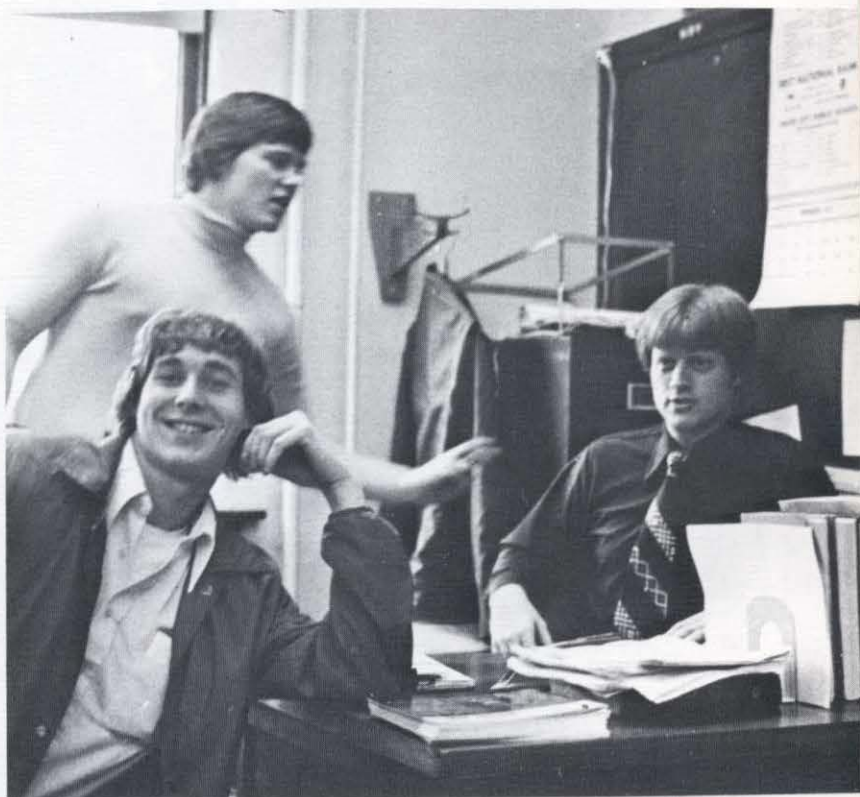

then conquer the massive crowds in the hall...

until, at last, you find your way...to the classroom.

Mr. Kinnan let his students know, early in the year, bookkeeping would not be easy.

In Mr. Coleman's class you gain experience with some real modern problems.

This year, mini-courses induced much interest in archery.

One of our DCHS students hard at work

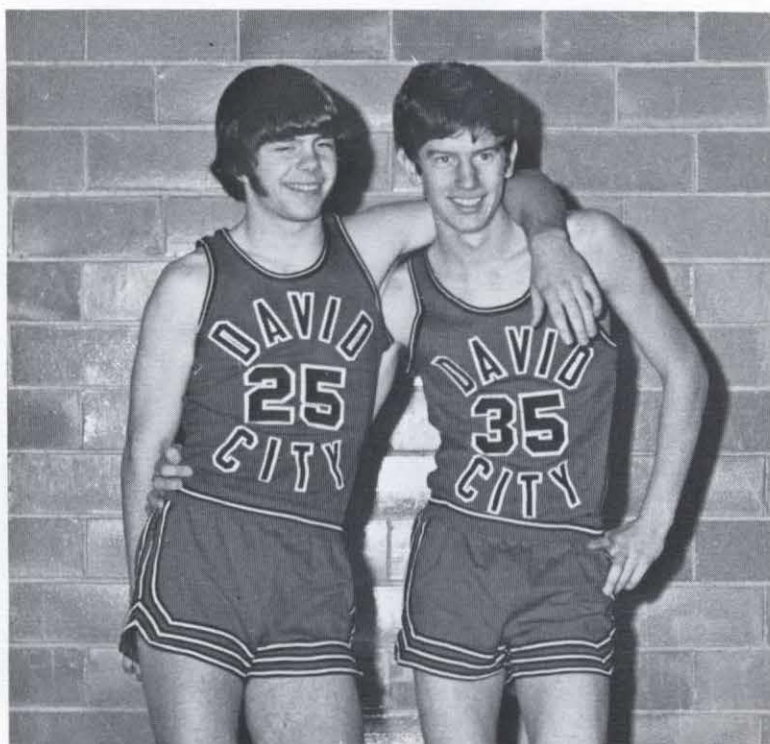

And you have to do this to get to go to state tournaments?

Miss Wamberg must be consulting her favorite student Myron.

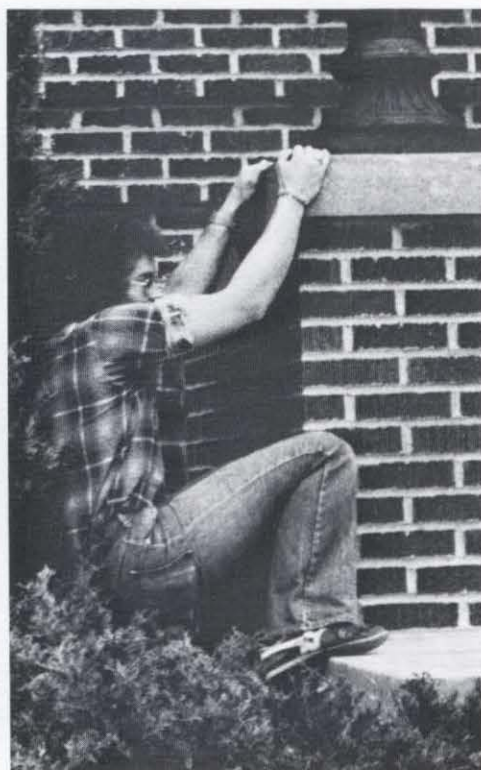

Independent Living is a riot, Just ask Mrs. D.

Here we see how the boys have learned to get along. Don't they look happy?

Lorna is applying for a job with Lincoln Mercury. She thinks she's wilder than their cat!

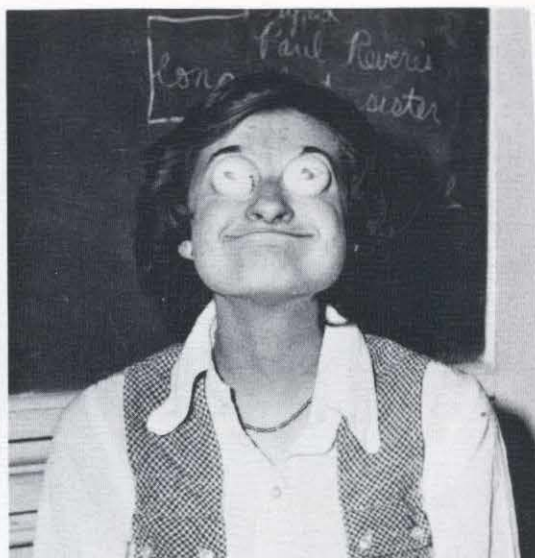

Well, Lynn, I guess that's what bushes are for.

What's going on inside that car, and where's Siffring?!?

Hamster: and his pet, Norton.

What's wrong Kozi? Haven't you EVER seen a boy before?

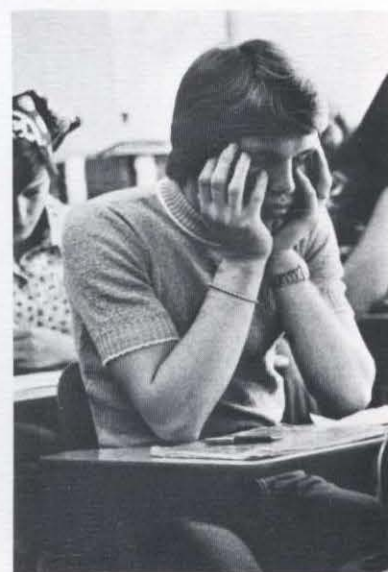

Ryan, Jay, and John have finally found a way to get Romshek to keep his mouth shut.

As the end draws near . . .

even after the long, trying day . . .

seventh period finds the students, still, hard at work, and enthusiastic until the last bell.

SENIORS

As Seniors, we all realize that the time is here for us to leave and to start a new beginning, a beginning that will identify us as adults in today's world. It's our turn to venture out and make our dreams come true. However, in doing so we must not forget the memories, for without them we are lost; we would have little or nothing to hold on to. We must say good-bye and start the seedlings of our dreams. We are confident that time will nurture our seedlings into mighty oaks.

Education is the result of contact. A great people is produced by contact with great minds.

Calvin Coolidge

What is the business of education but to fit
men to accomplish their duties and their
destiny?

Joseph Story

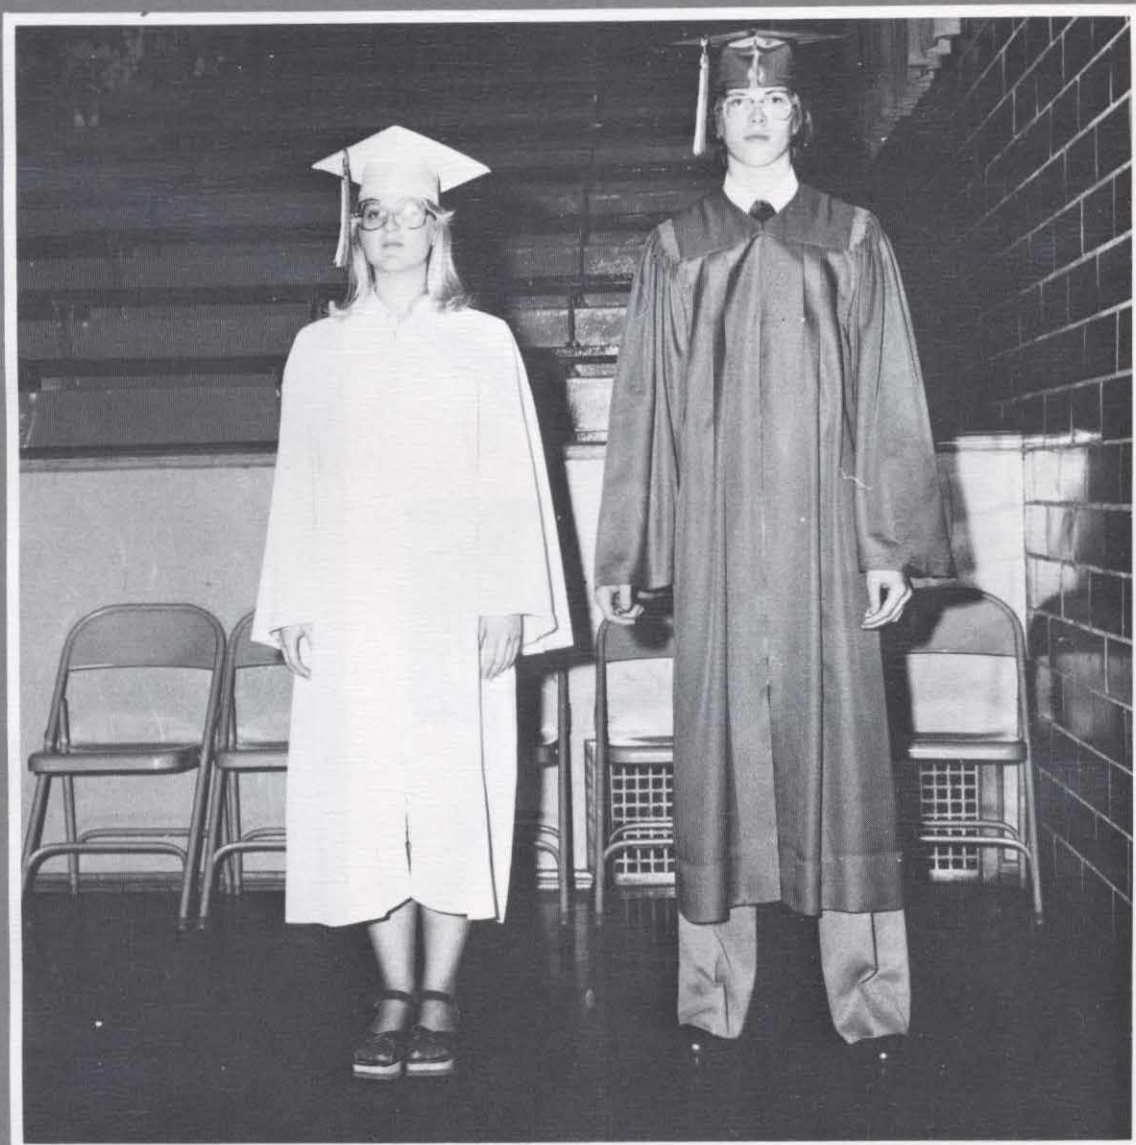

To be an American is of itself almost a
moral condition, an education, a career.

George Santayana

The great end of education is to discipline rather than to furnish the mind; to train it to the use of its own powers rather than fill it with the accumulations of others.
